Preface

County planning and development are among broad functions and mandates under the devolved system of government outlined in the fourth schedule of Constitution of Kenya 2010. The role of County statistics cannot be overstated in attaining the goal of integrated development planning at the subnational level. Increasingly, updated and accurate data has become a central pillar for informed decision-making in an ever evolving contemporarily public sector.

The successful preparation and publication of this County Statistical Abstract (CSA 2022) is a significant milestone achieved towards realisation of the devolution agenda. I wish to acknowledge the significant contribution of the Kenya National Bureau of Statistics (KNBS) in guiding on standardisation and quality of the Nakuru CSA 2022 which allows for further horizontal comparability across County governments. **I'm pleased to note that** KNBS has also released the Gross County Product (GCP 2021) which provides additional County specific data on economic statistics and contribution to the national Gross Domestic Product (GDP).

The CSA 2022 shall be critical in documenting quantifiable progress in County development over the period 2017-2021. Going forward the CSA 2022 shall be instrumental in providing necessary baselines for the next County Integrated Development Plan (CIDP 2023-2027) as well as tracking implementation of integrated plans through Monitoring and Evaluation (M&E).

I wish to appreciate the depth of CSA 2022 in capturing the growing County sectoral data needs. It is my expectation that County Government of Nakuru shall produce the CSA on an annual basis in order to provide County stakeholders with updated statistics necessary for informed decision making and further address emerging data gaps in a dynamic subnational field.

H.E Susan Kihika
GOVERNOR, NAKURU COUNTY

Foreword

The first principle in the United Nation’s Fundamental Principle of Official Statistics states that official statistics provide an indispensable element in the information system of a democratic society, serving the government, the economy, and the public with data about the economic, demographic, social and environmental situation. To this end, official statistics that meet the test of practical utility are to be compiled and made available on an impartial basis by official statistical agencies to honour citizens’ entitlement to public information. It is within this internationally accepted norm embedded in the Statistics Act, 2006, that the 2022 Nakuru County Statistical Abstract (CSA) was produced.

In line with its mandate of collaborating with and assisting the county governments or any other institutions in the production of official statistics in the country, the Kenya National Bureau of Statistics (KNBS) collaborated with County Government of Nakuru to produce the 2022 Nakuru CSA. The 2022 Nakuru CSA is a single source of information that presents the official statistics produced by Ministries, Departments and Agencies (MDAs) both at National Government and the County Government of Nakuru. This publication provides data series on various sectors of the economy at the county level for the period 2017 to 2021. The data is mostly from administrative records and sample surveys conducted within the period.

The production of the 2022 Nakuru CSA has gone through all the recommended stages of producing official statistics. The statistics generated were validated by the MDAs within Nakuru County both from National and the County Government. The data were reviewed by the technical team from KNBS and County Government of Nakuru.

The 2022 Nakuru CSA is categorised into an introductory chapter and three other chapters based on the classification of statistical activities undertaken by national and international statistical organisations. This classification follows the statistical subject-matter domains used in the Database of International Statistical Activities (DISA) with three domains of; Demographic and Social Statistics; Economic Statistics; and Environment and Multi-domain Statistics.

We welcome the readers to this publication and encourage offer positive critique aimed at improving the contents and quality of future publications. KNBS appreciates the collaboration that has resulted in the production of this publication which contains a comprehensive set of indicators that are useful for planning and policy formulation for Nakuru County.

Macdonald G. Obudho, MBS
Director General
Kenya National Bureau of Statistics

Acknowledgement

The Nakuru County Statistical Abstract 2022, is the second to be developed after the first publication in 2015. The preparation and publication of CSA 2022 was made possible through joint efforts from the data producers, collectors, analysts and compilers involved in the whole process. This was facilitated through the collaboration and goodwill from National and County government. The collaborative effort observed is expected to fast-track in the production of future CSAs.

In this regard, I wish to express my sincere gratitude to H.E Susan Kihika for the effective leadership and support in developing this abstract. Special recognition goes to the County Secretary and the County Commissioner under whose direction and support this assignment was executed.

Special thanks go to the Kenya National Bureau of Statistics for providing technical backstopping as well as quality assurance throughout the whole process. Further, the Regional Planning office under the State department for Planning played a key supportive role towards the achievement of this goal.

May I acknowledge my colleague County Executive Committee Members, Chief Officers and the Clerk County Assembly for their facilitative role in providing the required data. The County Directors in Nakuru County Government and Heads of National Government County Departments & Parastatals played a pivotal role during data collection and validation phases.

Finally, I take this chance to recognise tireless efforts and commitment of the Technical Working Group (TWG) towards successful completion of this assignment led by Cyrus M. Kahiga, Dorcas Mwangi, Peter Kamau, Simon Wafula, Richard Nyaliech, Charles Lwanga, Dominic Nyabuto, Asinah Wanga and Abraham Chepkech.

I wish to reiterate the County Government commitment in strengthening the linkages with development stakeholders—in improving access and utilisation of updated and verifiable County statistics—in facilitating planning, research and decision making.

S. Iribe Njogu

Symbols

The following symbols have been used in this publication

“*” Means figures are provisional and may change in subsequent CSAs

“-” Means nil or negligible (less than half the final digit shown)

“..” Means figures not available

“I” between consecutive figures means they have been compiled on a different basis and are not strictly comparable. The nature of the difference is usually indicated as a footnote.

Rounding of figures: In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

INTRODUCTION

BACKGROUND INFORMATION

The Second Nakuru County Statistical Abstract (CSA) has been prepared through the joint effort of the County Government of Nakuru (CGN), Kenya National Bureau of Statistics (KNBS) and National Government Ministries and Autonomous/Semi-autonomous Agencies at the County Level. The CSA presents the demographic, economic, social, political and environmental statistics for Nakuru County, for a five-year period; i.e., 2017-2021 Calendar period or FY 2016/17-FY 2020/21 fiscal period.

The abstract is prepared to provide a single source of data and statistics that is useful to inform decision making, planning and research for various users including the general public. The information was mainly compiled from administrative records, and partly from surveys and censuses as indicated under each table.

This is the second CSA to be prepared, after the publication of the first CSA in 2015. Data users may seek additional information from the County Government on the content of this abstract.

Overview of Nakuru County

Nakuru County is located in the Rift Valley region of Kenya, with its headquarters in Nakuru City. The County is among the most cosmopolitan in the country inhabited with almost all ethnic groups dwelling. Its major economic activities include; agriculture, transport & storage, wholesale & retail trade, tourism and electricity supply. The County covers an area of approximately 7,498.8 Km² and is located between Longitudes 35.41 ° East or 35 ° 24' 36" East and 36.6 ° East or 36 ° 36' 0" East and Latitude 0.23 ° North or 0 ° 13' 48" North and 1.16 ° South or 1 ° 9' 36" South.

Nakuru borders eight other Counties namely; Laikipia to the north-east, Kericho and Bomet to the West, Narok to the South, Kajiado and Kiambu to the South East, Baringo to the North and Nyandarua to the East. According to the 2019 Kenya Population and Housing Census, the County had 2,162,202, people comprised of 1,077,272 males, 1,084,835 females and 95 intersex. The population density stood at 289.7 persons per square kilometre. Out of this population, 48.5 percent live in urban areas.

Figure 1.1: Kenya map showing the location of Nakuru County

County Administrative Units

The County has 11 sub-counties namely; Naivasha, Nakuru West, Nakuru East, Kuresoi South, Kuresoi North, Molo, Rongai, Subukia, Njoro, Gilgil and Bahati.

The county has 55 wards spanning the 11 sub-Counties as outlined in Table A1.

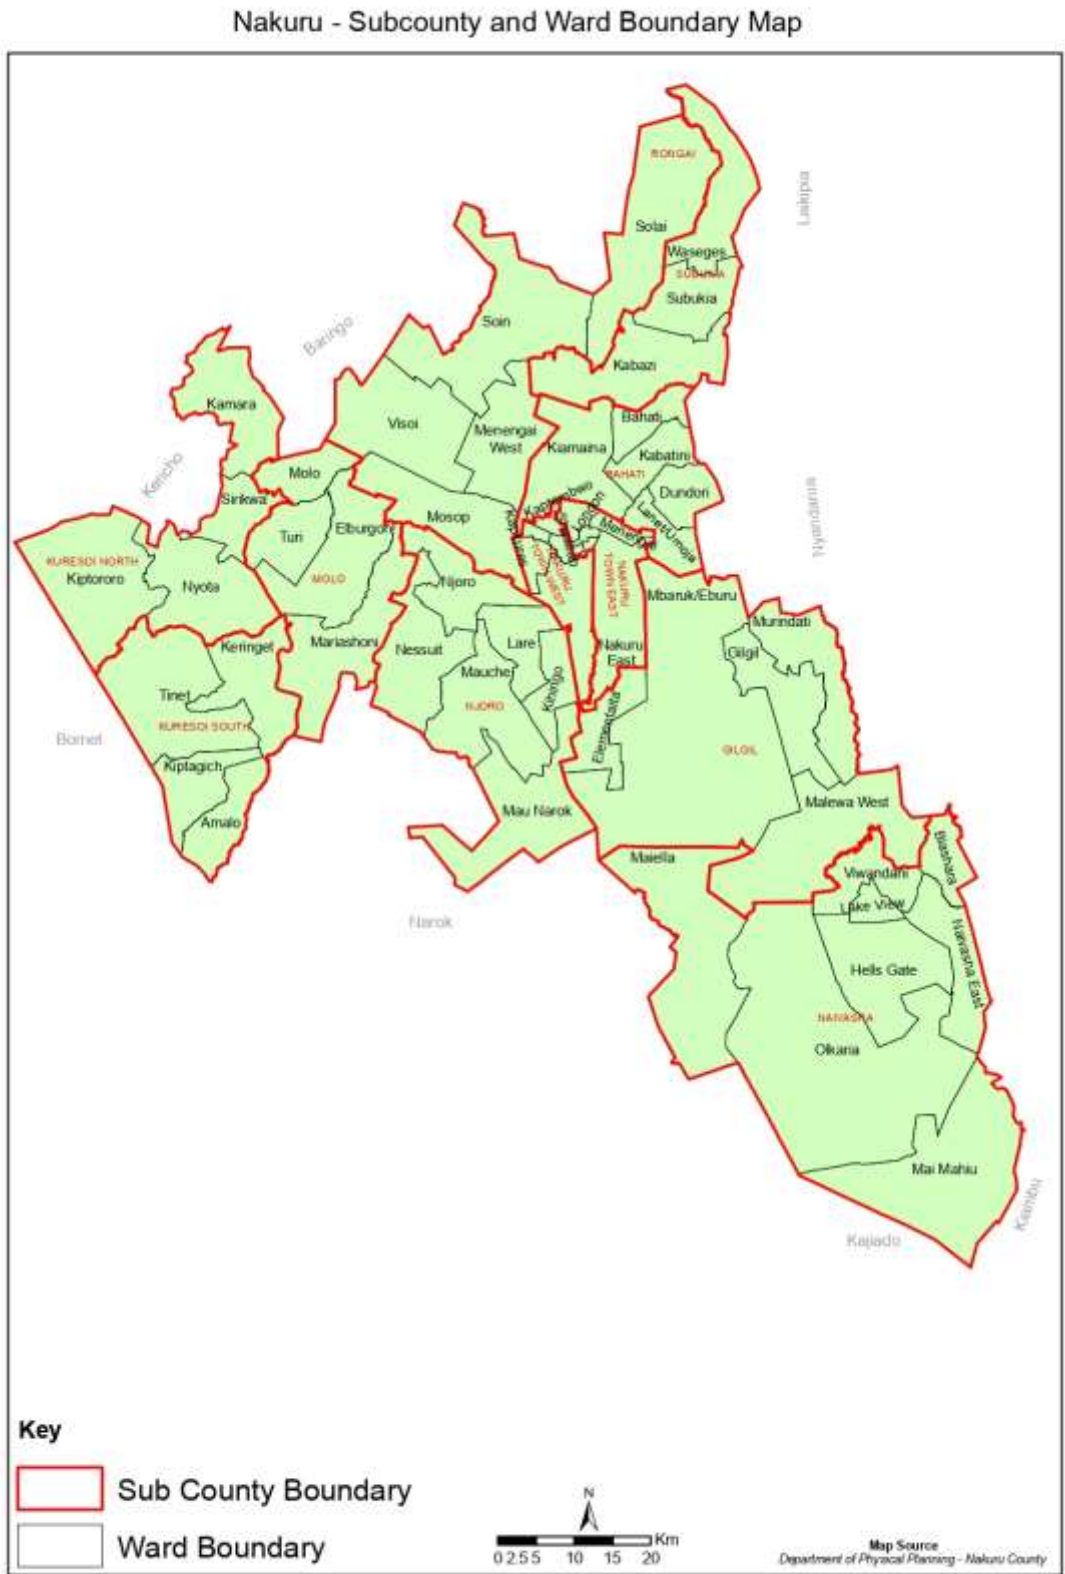

Table A1: Wards by Sub County and Area

| Sub County | Area in KM ² | Wards |
|---------------|-------------------------|---|
| Molo | 478.79 | Molo, Turi, Elburgon, Marioshoni. |
| Njoro | 713.3 | Mau Narok, Kihingo, Mauche, Nessuit, Lare, Njoro |
| Naivasha | 1685.8 | Biashara, Maiella, Maimahiu, Viwandani, Hells Gate, Olkaria, Naivasha East, Lake View |
| Gilgil | 1348.4 | Gilgil, Malewa West, Eburru/Mbaruk, Elementaita, Murindat |
| Kuresoi South | 559.7 | Amalo, Keringet, Kiptagich, Tinet |
| Kuresoi North | 572.3 | Kiptororo, Nyota, Sirikwa, Kamara |
| Subukia | 390.71 | Waseges, Subukia, Kabazi |
| Rongai | 1049.1 | Mosop, Soin, Menengai West, Visoi, Solai. |
| Bahati | 375.4 | Kabatini, Kiamaina, Lanet/Umoja, Dundori, Bahati |
| Nakuru West | 251 | Barut, London, Kaptembwo, Kapkures, Rhonda, Shaabab |
| Nakuru East | 74.3 | Biashara, Kivumbini, Menengai, Flamingo, Nakuru East |
| | 7498.8 | |

Figure 1.2: County Map showing the Sub-Counties and Ward

Climatic and Agro-Ecological Zones

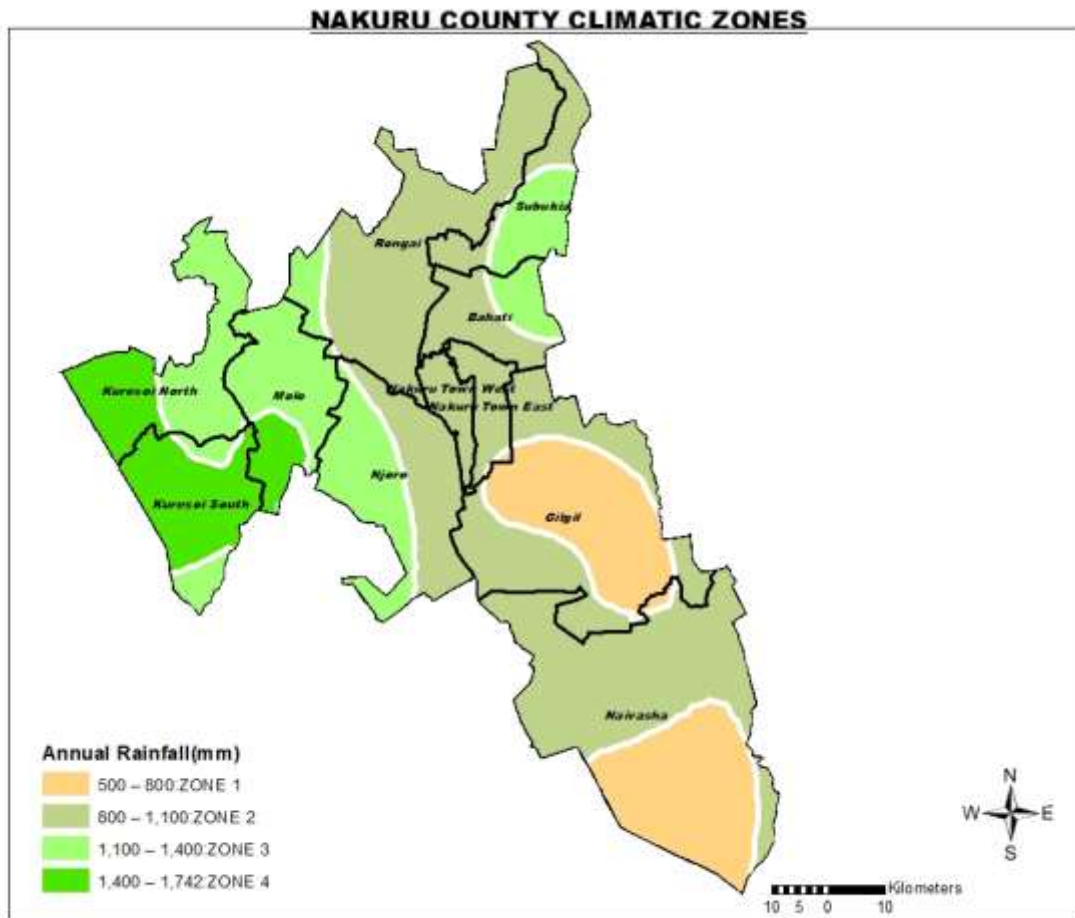

The climate of Nakuru County is strongly influenced by the altitude and physical features. There are four broad climatic zones as shown in the figure below: Zone 1 has lowest mean annual amount of rainfall of about 500-800mm per annum. This zone is predominantly experienced in Gilgil and Naivasha sub-counties. Zone 2 occupies most parts of Nakuru County with a general elevation of between 900m and 1800m. Zone 3 receives rainfall of between 1100mm and 1400mm per annum and covers areas with an altitude of between 1800-2300m. This zone covers much of the sub-counties of Kuresoi North, Molo, Njoro, Subukia and Bahati and are very suitable for agricultural activities. Zone 4 covers areas with an altitude between 2300m and 2700m, receiving rainfall of over 1400mm per annum. This zone covers Mau Escarpment that is parts of both sub-counties of Kuresoi North and South.

The County has 13 Agro-Ecological Zones (AEZ), which cover different regions of the County: they include

- AEZ TA (covering Molo, Olenguruone and Njoro),
- AEZ UH1 (Molo, Mau Narok, Bahati Forest, Olenguruone),
- AEZ UH2 (Molo South, Mau Summit, Keringet, Olenguruone),
- AEZ UH3 (Mau Narok, Olenguruone),
- AEZ LH2 (Kabazi, Dundori, Mau Narok),
- AEZ LH3 (Njoro, Ngata, Menengai, Naivasha, Subukia),
- AEZ LH4 (Rongai, Naivasha, Upper Gilgil),
- AEZ LH5 (Gilgil, Naivasha, Karati),
- AEZ UM3 (Mbogoini, Bahati),
- AEZ UM4 (Waseges, Lower Solai, Kampi Ya Moto),
- AEZ UM5 and UM6 (Lake Naivasha, Mbaruk, Longonot),
- AEZ LM5 and LM6 (Mbogoini).

County Physical and Topographical Features

The main topographical features in Nakuru County are the Mau Escarpment, the Rift Valley floor, Ol-Doinyo Eburru Volcano, Akira Plains and Menengai Crater. The county is endowed with an elaborate natural drainage system with three inland lakes i.e., Lake Naivasha, Lake Nakuru, and Lake Elementaita. Some of the main rivers in the county include Njoro and Makalia which drain into Lake Nakuru, Malewa which drains into Lake Naivasha and Molo which drains into Lake Baringo. Underground hot springs in Olkaria and Menengai Crater are an important source of geothermal power that serves not only the County but also provides power supply to the national grid. Other predominant features include the Hells Gate gorges, Mt. Longonot, and Hyrax hill.

Overview of County Government of Nakuru

Structure and Functions of the County Government

The 2010 Constitution of Kenya created a two-tier government structure with one National Government and forty-seven devolved County Governments. The County Governments consist of two arms, namely the County Executive and the County Assembly.

The functions of County Governments are contained in the Fourth Schedule of the 2010 Constitution to include Agriculture; County Health services; Control of air pollution, noise pollution, other public nuisances and outdoor advertising; Cultural activities, public entertainment and public amenities; County transport; Animal control and welfare; Trade development and regulation; County planning and development; Pre-primary education, village polytechnics, homecraft centres and childcare facilities; Implementation of specific national government policies on natural resources and environmental conservation; County public works and service; Firefighting services and disaster management; Control of drugs and pornography; Ensuring and coordinating the participation of communities and locations in governance.

The County Executive

The Executive arm is constituted of the Governor, Deputy Governor, the County Executive Committee (CEC), County Departments and entities, and the county public service.

The Governor and Deputy Governor are elected through a general election for a five-year term, and the Governor is eligible for election for a one final term. The County Executive Committee Members are appointed by the Governor, and approved by the County Assembly.

| The County Executive | | | |
|----------------------------|----|-------------------------------|----|
| County Executive Committee | | County Departments & Entities | |
| County Governor | 1 | County Departments | 10 |
| Deputy Governor | 1 | County Public Service Board | 1 |
| County Secretary | 1 | City | 1 |
| CEC Members | 10 | Municipalities | 2 |
| County Attorney | 1 | Water and Sanitation Co.s | 3 |
| | | Nakuru Revenue Authority | 1 |

The County Assembly

The County Assembly is the legislative arm of the County Government. Its functions include legislation, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from the 55 Wards in the County, nominated MCAs representing special interest groups such as persons with disability and the youth, and the Speaker who is an *ex-officio member*. The composition of the County Assembly for Nakuru is as follows:

COUNTY VISION AND MISSION

Vision:

A secure, cohesive and industrialized County

Mission

To formulate citizen-oriented policies, promote sustainable socio-economic and technological development

Overview of Kenya National Bureau of Statistics

Kenya National Bureau of Statistics (KNBS) is a State Corporation in the National Treasury and Planning established by the Statistics Act, 2006. KNBS has offices in all 47 counties.

Mandate

1. Plan, authorise, co-ordinate and supervise all official statistical programmes undertaken within the national statistical system;
2. Establish standards and ensure the use of best practices and methods in the production and dissemination of statistical information across the national statistical system;
3. Collect, compile, analyse, abstract and disseminate statistical information on the matters specified in the first schedule;
4. Conduct the population and housing census every ten years, and such other censuses and surveys as the board may determine;
5. Maintain a comprehensive and reliable national socio-economic database.
6. Develop and maintain sampling frames of the bureau;
7. Collaborate with and assist the county governments or any other institutions in the production of official statistics;
8. Provide technical advice on statistics to other state entities;
9. Promote co-ordination among producers, users and suppliers of official statistics by forming appropriate sector committees; and
10. Designate statistics produced by national statistical system as official statistics on being satisfied that the necessary criteria have been followed.

Vision

To be a global leader in the provision of quality statistical services

Mission

To provide, manage and promote quality statistical services through utilisation of best practices for evidence-based decision making

Core Values

Professionalism; Integrity; Confidentiality; Customer Focus; Innovation; and Teamwork.

STATISTICAL DOMAIN ONE
DEMOGRAPHICS AND SOCIAL STATISTICS

1.1. Population and Migration

Population and demographic statistics. The topics include demography, vital statistics, population structures and growth, demographic projections, families and households (marriages, divorces, household size), migration, refugees and asylum seekers.

This section presents data for demography, vital statistics, population structures, and household sizes only.

Notes and Definitions

Density: Refers to the number of persons per square Kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in Km².

Area: is the extent of a surface enclosed within a specified boundary, expressed in square Kilometres. This excludes areas covered by water.

Birth: is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes foetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

Place of Occurrence: It is where birth or death occurs.

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events.'

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

Births or Deaths Registered outside Health Facilities: Refer to births or deaths that occur at home and a notification is issued by the Assistant Chief.

Duplicate ID: Refers to an identity card (ID) issued for replacement of lost, misplaced or damaged ID card.

Persons with disability: refers to persons who have long-term physical, mental, intellectual or sensory impairments which in interaction with various barriers may hinder their full and effective participation in society on an equal basis with others'

Elderly persons: these are persons of 70 years and above

Orphans: these are needy children who are without both parents, one parent.

Vulnerable: these are persons who need special care, support, or protection because of age, disability, or risk of abuse or neglect.

1.2. Labour

This section covers statistics on labour force, labour market, employment and unemployment; the more detailed topics include economically active population, labour conditions, health and safety at work (accidents at work, occupational injuries and diseases, work-related health problems), working time and other working conditions, strikes and lockouts, job vacancies, job creation.

This section presents data for active population and county employment statistics only

Notes and Definitions

Establishment: The establishment is defined as an enterprise or part of an enterprise. It is an economic unit operating in a specific location in which a clearly defined economic activity is undertaken. It operates generally at a single location and engages predominantly in one type of economic activity. Thus, a large firm or enterprise with branches would have one of such branches referred to as an establishment because of its unique location and economic activity undertaken in that location.

Economic Activity: It is an activity related to production, distribution, exchange and consumption of goods and services.

Regular Workers: Regular workers refer to working owners/operators, fully paid employees, unpaid family members, and apprentices.

Employment: The term employment refers to performance of work for wage or salary in cash or in kind. It is a term used to measure the number of persons employed. Includes persons at work during a short reference period.

Permanent Employee: This is a person who is employed on an indefinite basis, subject to a probationary period that is reasonable with reference to the nature of the job (normally not more than six months) and work up to certain set age limit. Example: Public servants

Contract Employees: These are employees who work under some contractual arrangement with the employer and are hired for a specific job at a specific rate of pay. Contract employees work on short term basis.

Labour force participation rate: The section of working population in the age group of 15-64 in the economy currently employed or seeking employment. People who are still undergoing studies, housewives and persons above the age of 64 are not included in the labour force.

The dependency ratio: The number of dependents aged zero to 14 and over the age of 65, compared with the total population aged 15 to 64.

Table 1.2.1: Total Dependency Ratio and Distribution of the Working Population (15-64) by Sex and Sub County, 2019

1.3. Education

Education – includes educational participation, illiteracy, educational institutions and systems, human and financial resources invested in education, lifelong learning, vocational training and adult learning, impact of education, assessments of student performance, etc.

This section covers enrolment, educational institutions and infrastructure, human and financial resources invested in education, vocational training and adult learning.

Notes and Definitions

Public School: A school established, owned or operated by the government (Basic Education Act, 2013).

Private School: A school established, owned or operated by private entrepreneurs and institutions (Basic Education Act, 2013).

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

1.4. Health

Health – covers the health and mortality related statistical activities, including topics like life expectancy, health status, health and safety, health determinants (including lifestyle, nutrition, smoking, alcohol abuse), health resources and expenditure, health care systems, morbidity and mortality (including infant and child mortality), hospital admission, causes of illness and death, specific diseases (e.g, AIDS), disabilities, pharmaceutical consumption and sales, health personnel, remuneration of health professions, environmental health status, health inequality, health accounts.

This section covers the statistics on the health facilities, bed capacity, outpatient morbidity & mortality for both under five and above five, registered medical personnel, immunization for selected diseases, top 10 causes of death, cancer cases, non-communicable cases uptake of modern contraceptives and teenage pregnancies.

Notes and Definitions

Health Facility: This is a defined a health service delivery structure from where services are provided e.g., Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County Hospitals: Are hospitals which are the co-ordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County Hospitals: These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals.

Level 6 - National Referral Hospitals: Refers to National referral hospitals offering very specialised services. They include Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathari National Teaching and Referral Hospital, etc.

Morbidity: Refers to the existence of any form of disease, or to the degree that the health condition affects the patient.

Outpatient morbidity: The number of cases a client visits a health facility for treatment without spending the night (being admitted) in that facility.

1.5. Social Protection

This section presents information on activities and programmes of women groups, youth groups and funds disbursement to the vulnerable groups such as the elderly, persons with disability and orphans and vulnerable children. It outlines the measures put in place by the National and County governments to protect people against the risks of inadequate incomes associated with unemployment, ill health, disability, invalidity, old age, parental responsibilities, or inadequate income following the loss of a spouse or parent, etc. It also includes statistics on pension beneficiaries, social security schemes, and social protection allocated and disbursed funds.

This section includes programmes of women groups, youth groups and funds disbursement to the vulnerable groups such as the elderly, persons with disability and orphans and vulnerable children and also aspects of disability, old age, social security schemes, and social protection allocated and disbursed funds only as highlighted above.

Note: There were no offenders serving aftercare for Manslaughter, rape including attempt, theft of bicycles, corruption and causing death by dangerous driving

1.9 Culture

Culture – statistics dealing with cultural activities in society, like theatre, cinemas, museums, libraries, mass media, book production, sports, etc., including expenditure and financing of culture.

The main focus in this section includes libraries and sports. It presents the membership of libraries and disaggregation by sex. It also presents the sports in the County, membership by sex and by Sub-County.

Table 1.9.1: Active Kenya National Library Service Membership by Sex, 2017-2021

| Sex | Number | | | | |
|--------|---------|---------|---------|--------|--------|
| | 2017 | 2018 | 2019 | 2020 | 2021 |
| Male | 121,924 | 80,704 | 58,121 | 11,579 | 31,167 |
| Female | 113,252 | 80,449 | 56,931 | 8,201 | 22,827 |
| Total | 235,176 | 161,153 | 115,052 | 19,780 | 53,994 |

1.10 Political and other community activities

Political and other community activities – statistics on voting turnout, participation in political and other community activities, trade union membership, social dialogue, civil society, social capital, This section presents statistics on voting, participation in political and other community activities, identity cards; voters and their registration; and public participation sessions organised in the County and the attendance.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6 (1) of the Kenya's Constitution and specified in the First Schedule of the Constitution;

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincides with the Constituency area. There are 11 sub-counties in Nakuru County.

Constituency: this is an area demarcated as stated under Article 89 of the Kenyan Constitution for the purpose of electing a member of the National Assembly specified in Article 97(1a). There are 290 constituencies in Kenya; 11 of which are found in Nakuru County.

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution.

Ward: this is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of electing a member of the County Assembly. There are 1,450 wards in Kenya and 55 in Nakuru County.

STATISTICAL DOMAIN TWO

ECONOMIC STATISTICS

2.2 Economic Accounts

This section gives details on Gross County Product. Gross County Product (GCP) is a measure of how much each county contributes to Kenya’s Gross Domestic Product (GDP) and may therefore be interpreted as the “County GDP”. The GCP measures newly created economic value through production of goods and services in a specific county. The compilation of GCP is in accordance with international guidelines on estimation of regional gross domestic product. The GCP estimates are meant to address increased demand for county economic statistics such as size, growth rate, and structure of the economies. The GCP analytics show that while some counties have a small contribution to the national GDP, they have greater potential for faster rate of growth and potential for catch-up with the dominant contributors.

Notes and Definition

Gross Domestic Product (GDP): The total value of goods and services produced by resident producer units of a country for a specified period of time, usually one year. It is the sum of gross value added of all resident producer units (institutional sectors or industries).

Gross County Product (GCP): is a measure of how much each county contributes to Kenya’s Gross Domestic Product (GDP) and may therefore be interpreted as the “County GDP”. The GCP measures newly created economic value through production of goods and services in a specific county.

GDP at Market Prices: The sum total of the gross values added of all resident producers at producers’ prices, less subsidies on imports, plus all non-deductible Value Added Taxes (VAT) (or similar taxes).

GDP at Current Prices: The total value of goods and services valued at prices of the particular year of reporting. This is also referred to as nominal GDP.

GDP at Constant Prices: The total value of goods and services of the current year using prices of a determined base year.

Per Capita GDP: The average production per person of goods and services for a specified period i.e., one year. It is used to compare the relative welfare or standard of living in different countries in a particular period.

Gross Value Added at Basic Prices: Output valued at basic prices; less intermediate consumption valued at purchasers’ prices.

2.3 Business Statistics

Business statistics – economy wide statistics on the activities of enterprises, covers work on economic statistics across different sectors (as opposed to 2.4 that deals with specific individual sectors), deals with topics like statistics on economic activities of enterprises, business demography, business investment, business services, demand for services, industrial performance, enterprises by size class, industrial production, commodities, structure of sales and services, outputs of the service industries, non-profit institutions.

This Section includes economy wide statistics on the activities of enterprises, business demography, enterprises by size class, industrial production, commodities, outputs of the service industries.

Notes and Definitions

Data presented comprise revenue collection from single business permits and number of licensed Businesses.

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Revenue: means fees, levies, charges, penalties, fines or other monies imposed and collected under the written laws set out or adopted by the County Assembly of Nakuru

Revenue payer: means a client/person liable to pay a rate, fee or charge to the county government under revenue law(s).

Invoice: A statement that summarizes the total amount for services rendered.

Penalty: A punitive measure that the law imposes on clients who fail to diligently file and pay for their statutory taxes

Client: A person who consumes services provided by the County Government of Nakuru

2.4 Agriculture, Forestry and Fisheries

Agriculture, forestry, fisheries – includes all agriculture, forestry and fishery related statistics, e.g. agricultural monetary statistics (agricultural economic accounts), agricultural structures (farm structure), trade in agricultural products, agricultural labour input, crop and animal production, agricultural commodities, agro-industry statistics (including food production and safety), organic farming and organic food, government expenditure for agriculture, fishing and forestry, products source and use tables, forest and forest product statistics, forest resource assessment and forest fire, trade in forest products, fisheries.

This section includes all agriculture, livestock and fishery related statistics, e.g., trade in agricultural products, agricultural labour input, crop and animal production, agricultural commodities, agro-industry statistics (including food production and safety), government expenditure for agriculture, fishing, fisheries.

Notes and Definitions

High Potential: Clay-loam soil with sufficient manure and good drainage

Medium Potential: Sandy-loam soil with high drainage

Low Potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refer to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact.

Reporting Period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data

Agricultural Area: refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable Land: the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for “Arable land” are not meant to indicate the amount of land that is potentially cultivable.

Crop Production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Land potential: Capacity of land to resist and recover from degradation.

Aquaculture: This is the farming of aquatic organisms such as fish, molluscs, crustaceans, plants, crocodiles, alligators, and amphibians.

Horticulture: The art of cultivating plants in gardens to produce food and medicinal ingredients, or for comfort and ornamental purposes.

Livestock Production: Management and breeding of domestic livestock or farm animals for the purpose of obtaining their meat and products.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the County. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Hides and Skins: A hide, or skin is an animal skin treated for human use. Hides are defined as “skins” of large animals e.g cow, buffalo; while skins refer to “skins” of smaller animals, such as goats, sheep, deer, pigs, etc.

Livestock Primary Products: include products from live and slaughtered animals. Products from slaughtered animals include meat, offal, raw fats, fresh hides, and skins. Products from live animals include milk, eggs, honey, beeswax, and fibres of animal origin.

Abattoir: this refers to any slaughter plant e.g. slabs, slaughterhouses, gantry.

Slaughterhouse: this refers to a building/house meant for slaughter of animals for human consumption

Slab: This is the smallest of categorized slaughterhouse whose kill are small numbers: not more than 5 heads of cattle and whose target market is the nearest market Centre.

Gantry: A gantry is a structure used to straddle an object or animals being slaughtered. They are capable of lifting some of the animals being slaughtered.

Milk Processor: this is a plant that processes above 20,000 litres per day or has an installed capacity of the same.

Cottage Processor: this is a small milk processor that processes any reasonable quantity of up to 1,000 litres per day.

Milk Cooler: this is a plant involved only in the cooling of milk; no value is added to the milk.

Fish Pond: is a controlled pond or reservoir that is stocked with fish and is used in aquaculture for fish farming.

Inland Fish: refers to fish captured from the inland water surface bodies e.g. lakes, rivers etc.

Culture Fish: refers to fish captured from the ponds.

Forest: A forest is an area of land dominated by trees.

Gazetted Forest: Any forest area, or woodland or any part thereof, declared by notice in the Kenya Gazette Supplements, and which has a particular environmental, cultural, scientific, or other special significance, to be a nature reserve for the purpose of preserving its biodiversity.

Nursery: A place where plants are grown for transplanting, for use as stock for budding and grafting, or for sale. Commercial nurseries produce and distribute woody and herbaceous plants, including ornamental trees, shrubs, and bulb crops.

2.5 Energy

Energy - energy supply, energy use, energy balances, security of supply, energy markets, trade in energy, energy efficiency, renewable energy sources, government expenditure on energy.

This section includes energy supply, energy use, energy balances, trade in energy, energy efficiency, renewable energy sources, government expenditure on energy.

Notes and Definitions

Domestic Use: These are domestic customers. They are low voltage level (240 /415kV) users

Small Commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users.

Industrial Use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users

Street Lighting: They are low voltage level (240 /415kV) users

Pump Prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

2.6 Mining, Manufacturing and Construction

Mining, manufacturing, construction – statistics on specific industrial activities, e.g., steel, shipbuilding, and on construction, trade in specific products related to mining, manufacturing and construction.

This section includes data on Quarries, manufacturing firms, building approvals and building works completed.

Notes and Definitions

Residential: A residential building is defined as the building which provides more than half of its floor area for dwelling purposes. In other words, residential building provides sleeping accommodation with or without cooking or dining or both facilities.

Non-Residential: Non-residential buildings consists of buildings other than dwellings such as the warehouses and industrial buildings, commercial buildings, buildings for public entertainment, hotels, restaurants, educational buildings, health buildings, etc.

Floor Area: Floor area or floor space is the area (measured as square feet or square metres) taken up by a building or part of it.

2.7 Transport

Transport – covers statistics on all modes of transport (air, rail, road, inland waterways, sea), includes topics like transport infrastructure, equipment, traffic flows, personal mobility, safety, energy consumption, transport enterprises, passengers and freight transport, transport sector trends, road traffic accidents.

This section includes transport infrastructure, equipment, safety, transport enterprises, transport sector trends, road traffic accidents.

Notes and Definitions

International Trunk (Class A) Roads: Class A roads comprise international trunk roads linking centres of international importance and crossing international boundaries or terminating at international ports or airports, e.g., Uganda Road.

National Trunk (Class B) Roads: Class B roads link former provincial headquarters and other important centres to the capital, to each other or to the international road network.

Primary (Class C) Roads: Class C primary roads link provincially important centres to each other or higher-class roads; this has been reinterpreted more recently to mean linking district headquarters to each other and higher-level roads or centres.

Secondary Roads (Class D): Roads which link locally important centres to each other, or to more important centres or to a higher-class road (e.g., divisional headquarters).

Minor Roads (Class E): Roads which link to a minor centre.

KURA is responsible for the management, development, rehabilitation and maintenance of National Trunk Roads in the urban areas of the Republic of Kenya.

KeNHA is responsible for the management, development, rehabilitation and maintenance of International Trunk Roads (Class A roads) and National Trunk Roads in the urban areas of the Republic of Kenya.

KeRRA is responsible for the management, development, rehabilitation and maintenance of rural roads (Secondary roads)

2.9 Banking, Insurance and Financial Statistics

Banking, insurance, financial statistics – money, banking and financial market statistics, including financial accounts, money supply, interest rates, exchange rates, stock market indicators, securities, bank profitability, private sector insurance and pension fund statistics, Financial Soundness Indicators, this section Covers special funds disbursement.

Notes and Definitions

Banks: These are organizations where people and businesses can invest or borrow money and exchange foreign currency.

Insurance Companies: A business that provides coverage, in the form of compensation resulting from loss, damages, injury, treatment or hardship in exchange for premium payments.

Micro Finance institutions: These are organizations that offer financial services to low-income populations. They include deposit and non-deposit taking ones.

Forex Bureau: An over-the-counter market where buyers and sellers conduct foreign exchange transactions.

Cooperative: Cooperative is an autonomous association of persons united voluntarily to meet their common economic, social, and cultural needs and aspirations through a jointly owned and democratically controlled enterprise”.

Savings and Credit Cooperative Society (SACCOs): These are cooperatives which provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Active: Refers to members who are continuously engaged in an activity on a day-to-day basis or after some laid down intervals by the entities or accounts (as of Sacco’s or bank accounts) that are continuously used or been operated before the lapse of a certain period usually 1 year in most entities

Dormant: Something that is dormant is not active, growing, or not being used at the present time but is capable of becoming active later

Share Capital: Refers to the total of cooperatives’ shares that are held by members. It is withdrawn only when one ceases to be a member of the cooperative.

Turnover: Refers to the total sales made by a business in a certain period. It’s sometimes referred to as ‘gross revenue’ or ‘income’

2.10 Government Finance, Fiscal and Public Sector Statistics

Government finance, fiscal and public sector statistics – all statistics related to the government sector, including debt and deficit, revenue and expenditure, accounts of the government sector, central government, tax rates

and revenues, tax and benefit systems, financing of state pension and other state social security schemes, public sector employment.

Notes and Definitions

Equitable Share: These are Funds established under the Article 217 of the constitution. The parliament shares vertically between the national and the county governments. The money comes from the ordinary revenue the National Government raises nationally. The Senate then allocates the equitable share for the counties from the vertical share horizontally among the 47 counties.

Conditional Allocation: These are additional allocations from the national government's equitable share of revenue (from the vertical sharing).

County Government Revenue: means all money derived by or on behalf of a county government from levies, rates, fees, charges or any other source authorized by the Constitution or an Act of Parliament.

Rebate: a partial refund to processed tea and coffee from the county.

2.11 Prices

Prices – covers any statistical activity dealing with prices, including Purchasing Power Parities (PPPs) and international comparisons of GDP, covers topics like Consumer Price Indices (CPI), inflation, Producer Price Indices (PPI), price indexes for specific products and services (e.g Information and Communication Technology products).

This section covers statistics on average retail & wholesale prices for farm inputs, agricultural produce and fuel prices.

Notes and Definitions

Retail: The sale of goods to the public in relatively small quantities for use or consumption rather than for resale.

Wholesale: Wholesale is the resale (sale without transformation) of new and used goods to retailers, to industrial, commercial, institutional or professional users. Wholesalers frequently physically assemble, sort and grade goods in large lots, break bulk, repack and redistribute in smaller lots.

Consumer: A consumer is one that buys goods or services for consumption and not for resale or commercial purpose. The consumer is an individual who pays some amount of money for the thing required to consume goods and services.

Commodity: A commodity is a basic good used in commerce that is interchangeable with other goods of the same type. Examples of commodities include grains, gold, beef, oil, and natural gas among others.

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

2.12 Labour Statistics

This section covers statistics on labour force, labour market, employment and unemployment; the more detailed topics include economically active population, labour conditions, health and safety at work (accidents at work, occupational injuries and diseases, work-related health problems), working time and other working conditions, strikes and lockouts, job vacancies, job creation.

This section covers statistics on public sector wage employment and County government human resource.

Notes and Definitions

Labour force participation rate: The section of working population in the age group of 15-64 in the economy currently employed or seeking employment. People who are still undergoing studies, housewives and persons above the age of 64 are not included in the labour force.

The dependency ratio: The number of dependents aged zero to 14 and over the age of 65, compared with the total population aged 15 to 64.

STATISTICAL DOMAIN THREE

ENVIRONMENT AND MULTI-DOMAIN STATISTICS

3.1 Environment

The totality of all the external conditions (physical, biological and socio-economic) affecting the life, development and survival of an organism. It includes topics like climate, climate change, biodiversity, environment and health, natural resources, soil, water, air, landscape, waste, environmental expenditure, expenditure for the protection of the environment, environmental accounts, agro-environmental indicators, environmental pressure, environmental impact of industry, transport, energy, etc., environmental monitoring, material flow analysis, environmental decoupling indicators, pollution, ecosystems, land use and cover, environmental protection, nationally protected areas.

This section covers statistics County water sources & their operational status, main sources of drinking water, County wetlands, solid waste management, environmental impact assessment & environmental crimes, gazetted forests and sewer line connectivity.

Notes and Definition

Topography: Refers to the geographic features of a location. The features include the mountains, peaks valleys etc.

Climate: The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county. The county experiences two rain seasons: March to May's "long rains" and October to December's "short rains".

Land Area: Refers to an area in square kilometres of the land-based portions of standard geographic areas excluding water mass.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value.

Table 3.1.1: Number of Water Sources in Nakuru County by Sub County, 2021

| Sub County | Water | | | | | | | Number |
|---------------|-----------|------|---------|---------------|------------|------------|--------------------|--------|
| | Boreholes | Dams | Springs | Shallow Wells | Water Pans | Harvesting | Rivers and Streams | |

¹ The Summary of green house gas emissions in Nakuru County documents emissions from the largest contributing sectors that is energy sector, transport sector and waste sector

Nakuru County set an overall emission reduction target. The County seeks to reduce GHG emissions by 33% by 2030 compared to the BAU scenario. The County commits to achieving a reduction of GHG emissions of atleast 6% compared to BAU scenario from domestic resources, while the remaining 27% is conditional on external support

Table 3.1.17: Summary of GHG Emissions (tCO₂e), 2019

| Sector | Scope 13 Emissions | Scope 24 Emissions | Total Emissions | Proportion of Total Emissions |
|-------------------|--------------------|--------------------|-----------------|-------------------------------|
| Stationary energy | 669,273 | 34,587 | 703,860 | 42.80% |
| Transport | 544,749 | - | 544,749 | 33.20% |

3.2 Living Conditions, Poverty and Cross-Cutting Social Issues

Living conditions, poverty and cross-cutting social issues – includes work on multidimensional methods to measure poverty, living conditions in the broad sense, social inclusion/exclusion, social indicators, and social situation.

This section covers statistics on methods of human & solid waste disposal in households, the dominant roofing, wall & floor material for houses, house ownership and tenant status, main type of cooking and lighting fuel, main source of drinking water and ownership of selected household assets

Notes and Definitions

Poverty Line: Thresholds separating the poor from the non-poor. Three methods are usually used to derive poverty lines, namely; the cost of basic needs, food energy intake and subjective evaluations.

Poverty Incidence: Percentage of the population below the rural and urban poverty line.

Poverty Gap Index: Mean aggregate consumption expenditure shortfall of each poor individual from the poverty line.

Poverty Severity Index: Average squared distance below the poverty line.

Table 3.2.1: Percentage Distribution of Conventional Households by Main Mode of Human Waste Disposal and Sub-County, 2019

3.4 Information Society

Information society – statistics allowing to assess the use and impact of information and communication technologies on society, includes access and use of ICTs (including Internet), ICT expenditure and investment, ICT infrastructure, telecommunication networks, electronic communications, e-government, electronic commerce, e-learning, broadband penetration, ICT services, communication tariffs, network infrastructure, revenues, expenses and investment of operators, Internet indicators, trade in telecommunications equipment.

This section includes digital centres, population that have access to the internet and key institutions connected to internet

Notes and Definitions

Postal Services: An office or station of a government postal system at which mail is received and sorted, from which it is dispatched and distributed, and at which stamps are sold or other services rendered.

Postal Article: A postal article is an article (such as a letter, parcel etc.) addressed to you which is delivered by a postal operator. These include ordinary mail, registered mail, bulk mail, express mail etc.

Letter Box: a box attached to an outside wall, or a slot in the door of a building, into which mail is delivered.

Couriers: Couriers are distinguished from ordinary mail services by features such as speed, security, tracking, signature, specialization and individualization of express services, and swift delivery times, which are optional for most everyday mail services. As a premium service, couriers are usually more expensive than standard mail services, and their use is normally limited to packages where one or more of these features are considered important enough to warrant the cost.

3.4 Indicators related to the Sustainable Development Goals

The Sustainable Development Goals are a new set of goals, targets and indicators that UN member states committed to guide their developmental and political agenda over the next 15 years through to 2030. In the context of the integrated functions at the sub-national level, Nakuru County has identified 15 SDG goals based on their relevance and the devolved mandate of the County Governments. This section works on indicators and frameworks put in place to monitor the achievement of some sustainable development goals at the subnational level.

This section covers indicators on SDG 2,3,4,5,6,7,11 and 17

Goal No. 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round.

Table 3.5.1: Total Official Flows (Official Development Assistance) to the Department of Agriculture, Livestock, and Fisheries, FY 2016/17 – 2020/21

|---|-----------|------------|-------------|-------------|-------------|-------------|
| | | | | | | Total |
| Approved Estimates (NARIG-P & ASDSP Conditional Grant Allocation) | - | 50,000,000 | 162,418,798 | 368,507,501 | 216,040,116 | 796,966,415 |

Source: County Treasury

By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons.
