EXECUTIVE SUMMARY

Nakuru County is one of the cosmopolitan regions in the country with representation from all communities in Kenya. This has positioned the county as a land of unlimited opportunities leading to growth in both cultural and economic activities with a steady increase both in urban and rural population. This requires proper planning for health service provision to serve the everincreasing population in the county.

Health is one of the major sectors in the county and comprises of two divisions i.e. Public Health and sanitation and Medical services. The two divisions are headed by Chief Officers and the functions are run through Program Based Budgeting via three directorates: -

- 1. Public Health and sanitation.
- 2. Medical services.
- 3. Administration and Planning

In order to address health needs of its population, the department developed and launched a Health strategic plan and is implementing the second County Health Strategic and Investment Plan 2018-2022 which addresses unique needs of all cohorts. This is in line with the Governor's manifesto, The national Big Four Agenda, Kenya Health Policy Framework 2013-2030, Vision 2030 and international obligations e.g. Sustainable Development Goals.

The leading causes of ill health in the county are Communicable diseases with a rising burden of Non-Communicable Diseases (NCDs).

The budgetary allocation to the department has increased gradually over the years and currently forms 32% of the entire county budget.

The department's absorption of the budget for the FY 2019/2020 was Ksh 6,186,131,848.09 translating to 89.07 % out of a budget of Ksh 6,945,030,267.

During the year under review 2018/19-2019/20 the department annual growth in revenue increased by 13.47%.

The total pending bills as at 30th June 2020 was **Ksh 17,657,416.48**, which is a marked reduction from previous years and the department is committed to be free of debts.

The department will build on the gains made in the previous MTEF period in upgrading program targeting all level 4 and 5 hospitals and several level three facilities. All facilities shall develop master plan to guide future development and adopt WHO standards of a health facility within 5 km radius to improve access towards Universal Health Coverage.

Automation of health Medical /Records, HMIS and use of IT innovations will be an enabler of quality health service provision. A central ambulance dispatch Centre and fleet management system will also be strengthened to improve evacuations and pre hospital care.

Preventive and Promotive health services will be a priority to address the over 80% of the sanitation related & respiratory disease burden. This has been made more with advent COVID-19 pandemic and MOH Guidelines on Infection, Prevention and Control at the facility and community level which are being rolled out. The department will also address the rising burden of NCDs investing in awareness and screening services as well as specialized diagnostic and treatment facilities with emphasis on Oncology, Renal, Imaging and specialized theatres.

Partner coordination and resource mobilization will also be enhanced to bridge the budgetary gaps and enhance efficiency and accountability. The Department has developed a Co-created workplan to address journey to self-reliance with USAID implementing partners as well as all stakeholders for COVID-19 Pandemic management.

Health performance indicators are derived from the NHSSPIII, CIDP, County Health Strategic plan and aligned with Vision 2030, SDGs and the constitution of Kenya. It is based on the six policy objectives which guides in the policy direction.

The key highlights per directorates includes employment of 23 doctors on contract terms, 98 health workers on Universal Health Coverage Cohort I and 68 Interns health workers on contract. The Department also promoted 69 health workers.

The department also adopted the Integrated Human Resources Information System (IHRIS) in order to optimize HR management, ICT Survey and improvement of fund (FIF) of Ksh 597,511,764, Ksh 957,022,225 and Ksh 1,085,902,883.65 respectively. It managed to open13 new primary level facilities spread across all sub counties. Latrine coverage increased to 90% and ODF villages to 309 villages. The Department has opened four (4) Covid-19 Isolation units at Nakuru Level 5 Hospital; eye unit, Naivasha County Referral Hospital, Langalanga Sub-County Hospital and Bondeni Maternity Hospital with other facilities identified and prepared in case of upsurge in the number of cases.

The department is also facing a lot of emerging issues which may need more financial support. This includes introduction of Universal Health Care, increase in Non-communicable diseases and reemerging diseases. COVID-19 pandemic presents the single most important challenge to the health sector with disruption of normalcy and planned activities. The pandemic will not only affect the health landscape but also the economic outlook in the short, medium and long term and will affect the implementation of the strategic plans as well as annual work plans.

There are many challenges the department is facing currently which includes Shortage of staff, budget cuts, delay in funds disbursement, delayed and stalled projects and mismatch in project cycle expenses and enablers especially where budgets beyond construction; equipment, human resource and commodities are not factored in during project conceptualization.

For the department to render health services effectively, the county needs and additional **Ksh 1,000,000,000 budget allocations (Exclusive of FIF Funds)** annually to implement comprehensively, prioritized activities planned annually.

To address all those challenges the department has come up with recommendations if are implemented will see health care provision improved in the current financial year.

CHAPTER ONE

1.0 INTRODUCTION

1.1 BACKGROUND

The Department of Health is the largest devolved unit in Nakuru County with a current budgetary allocation of 34.1% of the entire county budget for FY2020/21. Health functions are fully devolved by the Constitution of Kenya 2010, fourth schedule. The following are the devolved functions: Health facilities and pharmacies, Ambulance services, promotion of primary health care, licensing and control of undertakings that sell food to public, cemeteries, funeral parlors and crematorium. Veterinary and solid waste management function was transferred to the department of Agriculture, Water, Energy, Environment and Natural Resources through an Executive order.

The devolved health functions will be implemented periodically through the Health Sector strategic plan. This Health Sector plan is informed by the, Kenya Health Policy Framework2014-2030, Kenya Health Sector Strategic Plan 2014-2018, Nakuru County Health Strategic Plan 2018-2022, CIDP 2018 – 2022, Governor Manifesto, The National Big Four Agenda, vision 2030 and international treaties and commitments including the Sustainable Development Goals.

Healthcare officials and providers in Nakuru County are dedicated to serving the diverse health needs of about 2.2 million people. The county has 90 nurses and 12 doctors per 100,000 people, a much better ratio than the national average of 55 nurses and 10 doctors per 100,000. This compares closely to the national average. In addition, the County has a total 674 facilities of which 208 are public and the rest private and FBO.

80% of the disease burden in Nakuru County is sanitation related and preventable thus a lot of investment is needed in this area.

Health services is largely funded by the County government through budgetary appropriation. Out-of-pocket expenditure also contributes significantly. The National Government supports National programmes including HIV/AIDS/ TB program, Vaccines for Immunizations for children,

Conditional Grants for referral hospital (PGH –Nakuru), Reproductive health commodities and Anti-Malarial commodities. The World Bank through THS-UCP supports RMNCAH activities. Other Health development partners also play a major role in bridging budgetary gaps. The department has three main directorates; these are Administration/Planning, Public Health and Sanitation and Medical services.

The increase is due to better services, improved NHIF reimbursement which reduced waivers. It is also worth noting that the department received funds from donors (DANIDA and THSUC) which amounted to Kshs 41,107,213 and 58,349,857 respectively: County also receive conditional grant for PGH level 5 of Kshs 373,872,832. Other donors supported the department at a tune of Kshs 11,703,464.

1.2 SECTOR VISION AND MISSION

Vision

A Healthy County

Mission

We provide integrated quality health services for all

1.3 STRATEGIC GOALS/OBJECTIVES

The sector has six policy objectives which are: -

- 1. To Eliminate Communicable Conditions
- 2. To Halt, and reverse the rising burden of non-communicable conditions
- 3. To reduce the burden of violence and injuries
- 4. To Minimize exposure to health risk factors
- 5. To provide essential health services
- 6. To strengthen collaboration with health-related sectors

1.4. SUB SECTOR AND THEIR MANDATES

The core mandates of the department of health are derived from the fourth Schedule of the Constitution of Kenya, legal notice number 137 of 2013 and Executive Order 1 of November 2017. Promoting access to health services in the county

- a) Address discrimination of marginalized areas and vulnerable groups
- b) Ensure efficiency of health service
- c) Ensuring equity of health services
- d) Promoting access to health services throughout Nakuru County
- e) Ensure efficiency is at the core of its health department and services
- f) Address problems of low-quality health services

The following services are offered, Medical services, Primary health care, sanitation, cemetery, mortuary and revenue collections services for the department of Health to achieve its sector mandate and obligations.

The Department has two divisions; Medical Services (Curative and Rehabilitative services) and Public Health and Sanitation (Promotive and Preventive services) headed by Chief Officers. These functions are run through Program Based Budgeting via three directorates: -

- 1. Public Health and sanitation.
- 2. Medical services.
- 3. Administration and Planning

MEDICAL SERVICES

The Division oversees operations of one (1) Level Five Hospitals and 15 level four hospitals. The Nakuru County Teaching and Referral Hospital (Rift Valley PGH) and Naivasha County Referral Hospital. Nakuru County Referral Hospital (PGH) serves eight neighboring counties of Baringo, Kericho, Bomet, Narok, Nyandarua, Laikipia, Samburu and Parts of Kiambu County. The level Five County Referral Hospital serves a significant population. It also serves as a teaching Hospital for Egerton and Kabarak Universities, Kenya Medical Training College and other medical training institutions. The facility offers specialized

services including specialized surgeries, imaging and diagnostics, renal, oncology, ICU/HDU, ENT, Dental and ophthalmic services.

The hospital also receives referrals from 15 level four Hospitals, seven of which were elevated these include; Naivasha, Gilgil, Bahati, Annex, Subukia, Kabazi, Mirugi Kariuki, Bondeni, Langalanga, Mogotio, Njoro, Elburgon, Molo, Olenguruone, Keringet Hospitals. Most of these health facilities have been earmarked for major upgrading by the County Government.

PUBLIC HEALTH AND SANITATION

This division is largely charged with the responsibility of running primary healthcare and programmes (Promotive, Preventive and Sanitation services). Through a network of 35 Health centres and 108 dispensaries and 249 community units with additional 113 new units created in current financial year (362 CU in total). These large numbers of facilities and the envisioned expansion will require heavy investment in human resources, medical commodities and technologies and recurrent costs.

Various Programmes including HIV/AIDS, TB, Malaria, Vaccines and Immunization programme, Disease Surveillance, Health Promotion, RMNCAH, Community Strategy, food & water safety, WASH, Institution and School Health, Development control, Building inspection and Nutrition. The division also offers port health services for travelers, medical waste management and Cemeteries, public funeral parlors and crematorium. These functions involve Policy enforcement and revenue collection.

A pilot stipend for Community Health Volunteers is being piloted in Molo and Nakuru North Sub-County.

1.5 ROLES OF STAKEHOLDERS

There are many Health actors in the county who work closely with department of Health to ensure that the people of this county are kept healthy and protected against diseases. To achieve this goal, the department works with a large network of partners through strengthening of inter-sectoral collaboration.

These partners include National Government Ministries and agencies, Private and FBO health service providers, Program implementing Partners, Institutions of higher learning and medical training and community-based organizations. The department has established an inventory of stakeholders and is currently coming up with a stakeholder's coordination framework in order to harness synergies and optimize use resources.

Stakeholder	Role
National Government	Providing policy direction, standard, training
	and Regulatory functions
County Government	Provision of health Care services and
	infrastructure development
County Assembly	Provides the overall oversight role to the
	department.
NGOs/CBOs and Religious	Bridging gaps in the health sector
organization	
National AIDS and STI Control	Address HIV/AIDS Issues, training and policy
Programme (NASCOP)	directions.
National AIDS Control Council	Oversees intervention, Monitoring and
(NACC)	Evaluation of HIV/AIDS activities.
Private Sector	Supplement government effort through
	provision of health care services
Donors (USAID, DANIDA, UNICEF,	Bridge the gap in budgetary allocations
Amref, WHO, World Bank, Equity	
Foundation)	
Health facility Boards/ committees	Create a link between the department/
	health facilities and the community.
SAGAs (Universities, KMTC)	They provide skilled human resources.
KEMSA	Provide medicines and other health
	products
KRCS, among others	Offer complementary health services to the
Private health service providers	citizenry of Nakuru, including faith-based
	health facilities.
NHIF	Provide social security i.e. Linda Mama and
	other reimbursement for services

CHAPTER TWO

2.0. PROGRAMME PERFORMANCE REVIEW FOR THE MTEF PERIOD 2017/18-2019/20

Health performance indicators are derived from the NHSSPIII, CIDP, County Health Strategic plan and aligned with Vision 2030, SDGs and the constitution of Kenya. It is based on the six policy objectives which guides in the policy direction.

The department, performance for the period under review is as shown in tables below. The key highlights include;

ADMINISTRATION AND PLANNING

During the period under review 2017/18-2019/20, 12 health workers were promoted in the period under review.

The department also adopted the Integrated Human Resources Information System (IHRIS) in order to optimize HR management.

The department also conducted an ICT survey. The department has already received the ICT EHR equipment for PGH& Molo. The county introduced a rewarding system for best performing workers, in the county as part of motivational strategy due to COVID-19 pandemic we are yet to carry out the exercise.

The department is mandated to collect facility improvement fund (FIF). Under the period under review revenue collected amounted to Ksh 597,511,764. Ksh 957,022,225 and Ksh 1,085,902,883.65respectively. This shows a significant increase in revenue collection.

PUBLIC HEALTH AND SANITATION

During the period under review 2017/18-2019/20 the department employed 141 health workers on contract; recruited 98 universal health coverage (UHC) staff, 47 interns.

Latrine coverage increased to 90% from 87% and ODF villages to 441 from 320 villages. The department also developed the Nakuru County Sanitation

Strategic and Investment Plan 2017- 2022. This is aimed at addressing the big burden of sanitation related diseases. The PMTCT Business Plan was also finalized aimed at sustaining the gains made in addressing the HIV scourge and towards 90-90-90 targets.

Through partner support, the department has started programs to address the rising burden of Non-Communicable Diseases. Preventive/Promotive-43% of the households were reached with health messages in order to reverse the downward trend of health indicators, 90% of household had functional toilets, 115 villages were declared open defecation free and 85%up from 79% of children below one year were fully immunized in the last year under review (2019/20).135 new community units were created were established in order to enhance community health services.

MEDICAL SERVICES

During the period under review 2017/18-2019/20 the department employed 183 health workers on contract; 21 interns, and 23 doctors and consultants.

The department has expanded key service areas. Expansion of oncology services with upcoming radiotherapy unit at the County referral Hospital.

Nakuru County has also benefited from the Managed Equipment Service (MES) Project in three Hospitals- Nakuru, Naivasha, and Molo. This has greatly improved access to quality diagnostic and curative services.

Through partner support, a diabetes Centre of Excellence was established at the County Referral Hospital with over 9781 patients accessing specialized services in the period under review. The County managed to procure drugs and health commodities worth Kshs 768,944,714.64 (FY2019/2020) and were distributed to various public health facilities

Curative and Rehabilitation-, HIV pregnant mother receiving ARVs increased from 97.9% to 98%, Increase of cervical cancer screening and operationalizing of Oncology and diabetic centres.

In addition, the county has developed a laboratory strategic plan 2018/2022 to guide quality in laboratory diagnosis as a result of which two have achieved

laboratory accreditation (Naivasha and Bahati SCHs). There was improvement in commodity security which was better funded and closed the financial year without a debt. There is also major construction of outpatient block in PGH Nakuru and Naivasha, Maternity wings in Elburgon, Njoro, Molo and Gilgil.

To address the rising burden of NCDs, specialized services such as comprehensive oncology services, imaging and specialized clinics and theatres, renal units among others have been established and strengthened in our major hospitals. This is in addition to the MES project that have been expanded to cover three major Hospitals that are operational currently. Upgrading of the Level 5 CTRH/PGH has also been envisioned. Strategic partnerships with University Medical Schools and other training institutions will be sort to develop and attract skills needed to this end.

In order to strengthen dental services in the county, the department will operationalize dental services in 5 level 4 facilities that is; Subukia, Olenguruone, Njoro, Langalanga and Molo hospitals.

X-ray department will also benefit from a picture archiving and communication system, which supports digital archiving, swift retrieval of medical images and online transmission of images. This machine has been installed in PGH Nakuru. 21 Health care workers have been trained and assessment done on the imagine equipment to prevent future breakdowns.

2.1. Review of Sector Programmes/Sub-Programmes/projects-Delivery of Outputs/KPI/ targets

2.2. EXPENDITURE ANALYSIS

2.2.1. Analysis of Programme expenditures

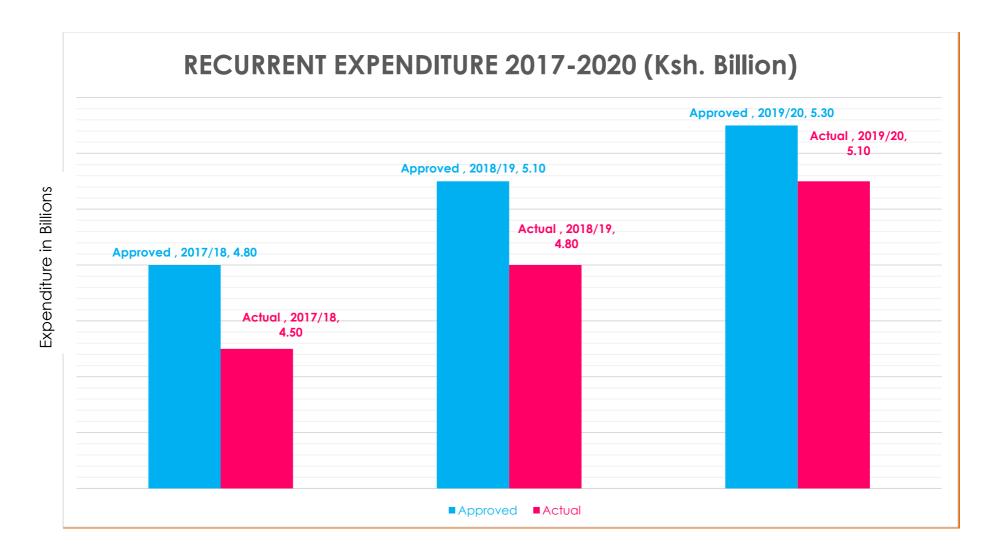

Recurrent Expenditure

The Approved budget on recurrent expenditure for FY 2017/18, 2018/19and FY 2019/20 were Ksh 4,868,808,451, 5,12,399,206 and, 5,359,455,043 respectively while the actual expenditure was Ksh4,566,535,969 Ksh4,838,417,229.56 and 5,151,982,255.09 respectively as presented in the graphs below.

Compensation for employees takes 60% of the recurrent expenditure this reduces the vote head of other essential recurrent expenditures such as drugs and non-pharm. This is further shown below;

Current Expenditure		Approved Budget		Actual Expenditure				
	2017/18	2018/19	2019/20	2017/18	2018/19	2019/20		
Compensation of employees	3,419,797,571	3,558,063,051	3,208,976,147	3,277,443,046.44	3,179,019,931.05	3,066,036,175.44

	8,474,786.65	7,694,339.08

CHAPTER THREE

3.0 MEDIUM TERM PRIORITIES AND FINANCIAL PLAN FOR THE MTEF PERIOD 2020/21 – 2022/23

The department will build on the gains made in the previous MTEF period. A major infrastructural upgrading program has been planned targeting seven key hospitals. The county referral hospital (PGH), Naivasha, Gilgil, Molo, Olenguruone, Elburgon, Njoro and Bahati hospitals are among these facilities. Automation of health Medical /Records, HMIS and use of IT innovations will be an enabler of quality health service provision. A central ambulance dispatch centre and fleet management system will also be strengthened to improve evacuations and pre hospital care. The ambulances will be strategically placed for ease of patients' referral to major hospitals for further management. Proper planning with standard drawings, plans and facility master plans will be developed to guide development projects. The department will adopt the WHO standards of a health facility within 5 km radius to improve access towards Universal Health Coverage.

Preventive and Promotive health services will be a priority to address the over 80% of the sanitation related disease burden. The department will also address the rising burden of NCDs investing in awareness and screening services as well as specialized diagnostic and treatment facilities. These will include Oncology, Renal, Imaging and specialized theatres.

Partner coordination and resource mobilization will also be enhanced to bridge the budgetary gaps and enhance efficiency and accountability.

3.1 Prioritization of Programmes and Sub-Programmes

3.1.1 Programmes and Their Objectives

Programme1: Preventive and Promotive Health Services Objective

To reduce disease burden associated with environmental health risk factors and unhealthy lifestyle.

2) Programme2: Health curative and rehabilitative services.

Objective:

To provide essential quality health Services that is affordable, equitable, accessible and responsive to client needs.

3) Programme 3: Administration, operational research and Planning Objective:

To implement and enact evidence-based policies that relates to resource mobilization, Planning and strengthening health care.

3.1.2. Programmes, Sub-Programmes, Expected Outcomes, Outputs, and Key Performance Indicators for the Sector

3.1.3 Programmes by Order of Ranking

- 1. Preventive and Promotive services
- 2. Curative and Rehabilitative services
- 3. Administration and planning

3.2 Analysis of Resource Requirement versus allocation by Sector

The requirement for the period 2020/21 is Ksh 7,595,882,196.27 compared to a resource allocation of Ksh 6,479,234,901. The requirement is guided by the CIDP, County Health Strategic plan guided by tenets highlighted by the Kenya Health Sector Strategic plan 2013-2017, The National Big Four Agenda, Vision 2030 and International treaties and Commitment including the Sustainable Development goals

3.2.1 Sector Recurrent

3.2 Resource Allocation Criteria

- 1. Department of Health priority on service need and demand
- 2. The governor and presidential 4 Agenda
- 3. The Vision 2030
- 4. Regional and international obligation/protocol
- 5. The Ministry of Finance circulars and guidelines and regulations

CHAPTER FOUR

4.0 CROSS-SECTOR LINKAGES

The following are the ministries that need to linkage with the county health sector.

SNO	SECTORS	AREA OF LINKAGES WITH THE HEALTH SECTOR
1.	Public Administration and	Resource allocation and financial technical
	International Relations	guidelines and support
		Provides the overall oversight role to the
		department and come up with legislations
_		which governs operations
2.	Education and Social	Advocacy and implementation of health policy.
	Protection Sectors	School health program and dissemination of
		health messages.
3.	Agriculture, Rural and	Housing standards, Titling of health facility land
	Urban Development	and Purchase of land for health facilities
		Coordinate activities that foster food security
		and nutrition
4.	Energy, Infrastructure and	Project design, BQ preparation, projects
	ICT Sector	supervision
		Strengthening of information communication
		technology
5.	Environmental Protection,	Support in provision of water and management
	Natural Resources and	of solid waste.
	Water	
6.	Public Service commission	Policy development and guidelines on human
_		resource management
7.	Private Health Facilities, FBOs & CBOs	Complement health service delivery
8.	National	Provides policy guidelines, trainings and funding
	Government/Ministry of	National programs (HIV, TB, Immunizations,)
	Health	Civil Registration of Vital Statistics and cancer
		center.
9.	Council of governors	Offer guidance and address any emerging
		issues
10.	Development partners	Bridging the existing gaps e.g. funding, capacity
	(WHO, UNICEF, DANIDA,	building service delivery and commodities
	USAID,	
	world bank, bilateral	
	donors, and others)	
11.	Community	Main stakeholders (To own their health issues)

CHAPTER FIVE

5.0 EMERGING ISSUES AND CHALLENGES

5.1 EMERGING ISSUES

- 1. Universal Health Care and social protection
- 2. New epidemics e.g. COVID 19, MDR and XDR TB, SARS and anthrax.
- 3. Increase in Non-Communicable Diseases Especially Cancer, Hypertension and Diabetes
- 4. Increasing burden of injuries e.g. Motor bike crashes and domestic injuries and ethnic unrest
- 5. Increase in self harm, suicide and drug abuse.
- 6. Increase in teenage pregnancy and GBV
- 7. Increased demand for drugs and health commodities due to rapidly increasing life style diseases
- 8. Increasing new HIV infections among the youths and key population.
- 9. Inadequate funds for recruitment, promotions & Training.

5.2 CHALLENGES

The Key challenges during the period were Human resource; staff shortage despite high wage bill, aging workforce and replacement of exiting health workers. There was an influx of patients from the neighboring counties seeking healthcare services further straining our resources. Increase in Non-Communicable Diseases E.g. Diabetes, cancer, accidents and injuries among others. Teenage pregnancies and drugs and substance abuse has also been on the increase among our youths who constitute a significant proportion of our population. Health financing gaps were experienced during this period i.e. inadequate funding from exchequer, high out-of-pocket expenditure from the patients and low health insurance coverage. Other challenges include;

- 1. Uncontrolled/ unregulated health facilities expansion without budgetary allocation to HR, Equipment and operation cost.
- 2. Delayed disbursement of funds from exchequer.
- 3. Stalled trauma center at level five facility

CHAPTER SIX

6.0 CONCLUSION

The Department of Health has the capacity to deliver on its constitutional mandate but requires additional allocation of resources. Our overall goal is to reduce inequalities in health care services and reverse the downward trend in health-related outcome indicators in the county. This will be achieved through

- Equitable access to health services.
- Sustained high quality services in the county.
- The fostering of partnerships.
- Improve financing of the health service in the county.

To achieve these goals and policy objectives, health indicators are developed and monitored on regular basis under each service delivery points. This is done through implementation of county annual Work plan (CAWP). The plan contains prioritized activities to address challenges in the county

These activities form the basis of budget process and allocation of funds. It is therefore important for the county finance and economic planning department to ensure that the department or the sector adequately funded to deliver its mandate fully. It has been observed that Facility improvement funds (FIF) forms part of the county revenue yet these funds are meant to revolve within the generating facility and not available for another facility. For the department to render health services effectively, the county needs and additional **Kshs 1,500,000,000 budget allocations (Exclusive of FIF Funds)** annually to implement comprehensively, prioritized activities planned annually.

The county also needs to address the pension arrangements especially in the bulk of staff previously under the national government non-contributory scheme.

A highly motivated and skilled health work force working in a conducive environment with the necessary tools and support will be key if the department is to achieve its objectives. The directorate of planning and administration has laid down detailed plans to this end. The department has an aging workforce and acute staff shortage in all cadres, which will be addressed through Human resource for health strategy. This is a capital intensive venture and calls for additional resource allocation to the department. Huge pending bills including personnel emoluments due in promotions, pension obligations and capacity development among others are a major setback currently.

CHAPTER SEVEN

7.0 RECOMMENDATIONS

The following are the recommendations for the department of health services.

- Increase budget allocation for the department of health.
- Disburse funds immediately after approval of the budget for timely implementation of activities planned and prioritized by all levels.
- Timely development of BQs
- Strengthen inter-sectoral collaborations and partner coordination
- Recurrent votes to be disbursed to health facility on time.
- Motivate and Capacity build existing staff and recruit additional staff.
- Match development budget with allocations for HR, Equipment and project life cycle costs
- Completion and operationalization of incomplete projects
- Streamlining pensions as per retirement schemes act 2019.
- The cost of sanitation related disease burden according to the World Bank, MoH and UNICEF 2017 report for Nakuru County was Ksh. 978 Million. To reverse the trend, the County is implementing Sanitation Roadmap Campaign 2020 and Urban Led Total Sanitation (ULTS) through NACOSTEC, a World Bank supported initiative.
- The division has proposed retention of revenues collected by the division in form of FIF
- The department should use geo-mapping of health facility distributions as per WHO requirement of 5 KM distances to avoid mushrooming of Health facilities
- Enhancing mental services and referrals in the county
- Expansion of mental services in levels 4 and 5 hospitals in the county
