SECTION II: - INFORMATION TO CONSULTANTS (ITC)

2.1 Introduction

- 2.1.1 The Client named the Appendix to “ITC” will select a firm among those invited to submit a proposal, in accordance with the method of selection detailed in the appendix. The method of selection shall be as indicated by the procuring entity in the Appendix.
- 2.1.2 The consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the Appendix “ITC” for consulting services required for the assignment named in the said Appendix. A Technical Proposal only may be submitted in assignments where the Client intends to apply standard conditions of engagement and scales of fees for professional services which are regulated as is the case with Building and Civil Engineering Consulting services. In such a case the highest ranked firm of the technical proposal shall be invited to negotiate a contract on the basis of scale fees. The proposal will be the basis for Contract negotiations and ultimately for a signed Contract with the selected firm.
- 2.1.3 The consultants must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain first hand information on the assignment and on the local conditions, consultants are encouraged to liaise with the Client regarding any information that they may require before submitting a proposal and to attend a pre-proposal conference where applicable. Consultants should contact the officials named in the Appendix “ITC” to arrange for any visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 2.1.4 The Procuring entity will provide the inputs specified in the Appendix “ITC”, assist the firm in obtaining licenses and permits needed to carry out the services and make available relevant project data and reports.
- 2.1.5 Please note that (i) the costs of preparing the proposal and of negotiating the Contract, including any visit to the Client are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.
- 2.1.6 The procuring entity’s employees, committee members, board members and their relative (spouse and children) are not eligible to participate.
- 2.1.7 The price to be charged for the tender document shall not exceed Kshs.5,000/=
- 2.1.8 The procuring entity shall allow the tenderer to review the tender document free of charge before purchase.

2.2 Clarification and Amendment of RFP Documents

Any request for clarification must be sent in writing by paper mail, cable, telex, facsimile or electronic mail to the Client's address indicated in the Appendix "ITC". The Client will respond by cable, telex, facsimile or electronic mail to such requests and will send written copies of the response (including an explanation of the query but without identifying the source of inquiry) to all invited consultants who intend to submit proposals.

2.2.2 At any time before the submission of proposals, the Client may for any reason, whether at his own initiative or in response to a clarification requested by an invited firm, amend the RFP. Any amendment shall be issued in writing through addenda. Addenda shall be sent by mail, cable, telex or facsimile to all invited consultants and will be binding on them. The Client may at his discretion extend the deadline for the submission of proposals.

If appropriate these costs should be broken down by activity.

- 2.4.2 The Financial Proposal should clearly identify as a separate amount, the local taxes, duties, fees, levies and other charges imposed under the law on the consultants, the sub-consultants and their personnel, unless Appendix “A” specifies otherwise.
- 2.4.3 Consultants shall express the price of their services in Kenya Shillings.

The Client shall simultaneously notify the consultants who have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals and stating that the opening ceremony is open to those

However, there shall be no such preference in the technical evaluation of the tenders. Proof of local incorporation and citizenship shall be required before the provisions of this sub-clause are applied. Details of such proof shall be attached by the Consultant in the financial proposal.
- 2.8.5 The formulae for determining the Financial Score (Sf) shall, unless an alternative formula is indicated in the Appendix "ITC", be as follows: -

Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T=the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + p = 1) indicated in the Appendix. The Client and firm will then work out final Terms of Reference, staffing and bar charts indicating activities, staff periods in the field and in the head office, staff-months, logistics and reporting. The agreed work plan and final Terms of Reference will then be incorporated in the “Description of Services” and form part of the Contract. Special attention will be paid to getting the most the firm can offer within the available budget and to clearly defining the inputs required from the Client to ensure satisfactory implementation of the assignment.
- 2.9.3 Unless there are exceptional reasons, the financial negotiations will not involve the remuneration rates for staff (no breakdown of fees).
- 2.9.4 Having selected the firm on the basis of, among other things, an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, the Client will require assurances that the experts will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. If this is not the case and if it is established that key staff were offered in the proposal without confirming their availability, the firm may be disqualified.
- 2.9.5 The negotiations will conclude with a review of the draft form of the Contract. To complete negotiations the Client and the selected firm will initial the agreed Contract. If negotiations fail, the Client will invite the firm whose proposal received the second highest score to negotiate a contract.
- 2.9.6 The procuring entity shall appoint a team for the purpose of the negotiations.

2.10 Award of Contract

- 2.10.1 The Contract will be awarded following negotiations. After negotiations are completed, the Client will promptly notify other consultants on the shortlist that they were unsuccessful and return the Financial Proposals of those consultants who did not pass the technical evaluation.

2.12 Corrupt or fraudulent practices

- 2.12.1 The procuring entity requires that the consultants observe the highest standards of ethics during the selection and award of the consultancy contract and also during the performance of the assignment. The tenderer shall sign a declaration that he has not and will not be involved in corrupt or fraudulent practices.
- 2.12.2 The procuring entity will reject a proposal for award if it determines that the consultant recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question.

Introduction

- The SymbioCity Kenya program is a partnership between the Swedish Association of Local Authorities and Regions (SALAR) and the Council of Governors (COG). The program is being implemented in 7 pilot counties with a focus on secondary towns, to enhance their capacity to govern and manage urban areas in a more sustainable way through application of SymbioCity approach: A concept for sustainable urban development that puts emphasis on improving the living conditions of the urban citizenry.
- Nakuru County was selected as one of the SymbioCity pilot Counties with the project being implemented in Njoro town. Through a continuous stakeholder engagement consultation, the people of Njoro expressed the need to have safe and sufficient drinking water, and management of storm water as an essential and priority need to be implemented through the project.

The proposed project intends to improve and increase access to safe drinking water and control surface rainwater flooding for the urban poor in Njoro town with the initial focus on the Jewathu area which covers an area of 0.5 km².

- There is a problem of excessive surface water runoff that floods the area during the rainy season. It contributes to the destruction of infrastructure, its fair share of disease outbreaks like malaria, typhoid & diarrhea and flooding business premises in other areas that result to economic losses.
- As one of several components the project should address the surface rainwater flooding within this residential area. Surface rainwater should be controlled through construction of a good storm water drainage system with proper lining. The storm water will be directed to a retention dam that is to be constructed within Njoro boys school farm and forest or any other area that the technical designs will recommend. The water will be used to irrigate both the farm and the forest. The project however proposes to have a technical storm water design system and specification developed to guide both construction works and the long-term management of the proposed system.

Objectives

- The main objective of this technical assignment is to get the professional description and design a sustainable solution of a storm water drainage and management system for Jewathu area.

- Based on run offs calculations, topography and rainfalls project and dimension a system for storm water management including run offs from plots, blocks and streets. Projections based on rainfall (present and predicted) and run off volumes.

The calculations must also consider the different land uses and geological information. The proposed system must be designed for gravity driven water flows taking into account natural slopes, streams and ground levels.

- Report writing containing description of proposed new storm water system, works needed and comprehensive bill of quantities
- The consultant is expected to liaise with the Nakuru SCK Working group and County GIS expert Solomon, County Engineer, and National Roads Authority

Outputs

- Proposal and design of the Jewathu Storm water management system in report with maps, descriptions and calculations.
- The proposal must include location and design of retention canals and dams.
- Description of works needed to build the system with manpower requirements, bill of quantities and process of works (phases and stages).
- Preliminary budget for the construction and management.

- Propose a system for project supervision, monitoring and control

Special Notes

1. The Lump-Sum price is arrived at on the basis of inputs – including rates – provided by the Consultant. The Client agrees to pay the Consultant according to a schedule of payments linked to the delivery of certain outputs, usually reports. Lump-sum contracts have the simplicity of administration, the Client having only to be satisfied with the outputs without monitoring the staff inputs and should be used for large Assignments in for example Design; Engineering; Supervision and Management Services; Master plans; Economic and Feasibility studies; and Surveys.
2. The Contract includes four parts: Form of Contract, the General Conditions of Contract, the Special Conditions of Contract and the Appendices. The Client using this standard contract should not alter the General Conditions. Any adjustment to meet any specific project features should be made only in the Special Conditions.

6.4 Payments shall be made according to the following schedule:

Note: (a) This sample Clause should be specifically drafted for each Contract and the following installments are indicative only; (b) if the payment of foreign currency and of local currency does not follow the same schedule, add a separate schedule for payment in local currency; and (c) if applicable, detail further the nature of the report evidencing performance, as may be required, e.g., submission of study or specific phase of study, survey, drawings, draft bidding documents, etc., as listed in Appendix B, Reporting Requirements. In the example provided, the bank guarantee for the repayment is released when the payments have reached 50 percent of the lump-sum price, because it is assumed that at that point, the advance has been entirely set off against the performance of services.

- Twenty (20) percent of the Contract Price shall be paid on the commencement date against the submission of a bank guarantee for the same.
- Ten (10) percent of the lump-sum amount shall be paid upon submission of the inception report.
- Twenty-five (25) percent of the lump-sum amount shall be paid upon submission of the interim report.
- Twenty-five (25) percent of the lump-sum amount shall be paid upon submission of the draft final report.
- Twenty (20) percent of the lump-sum amount shall be paid upon approval of the final report.
- The bank guarantee shall be released when the total payments reach fifty (50) percent of the lump-sum amount.
