EXECUTIVE SUMMARY

Quarterly progress reporting is rationalized by the Constitution of Kenya, 2010 and which provides for adherence to principles of good governance and transparency in the conduct and management of public finance. Budget Implementation Review Report is prepared in accordance with Section 166 of the Public Finance Management Act, 2012 and 54 of PFM County Government Regulations, 2015. In this regard, this report is hereby explicitly prepared in order to provide a detailed financial performance as at the fourth quarter of FY 2022/2023. This review report covers all County Government Departments/Entities across the eight sectors.

During the period under review the total receipts amounted to KShs 20.71 billion which consists of equitable share which amounted to KShs 13.02 billion, Fiscal balance KShs 3.91 billion, Own Source Revenue (OSR) KShs 3.13 billion and Conditional Grants of KShs. 647 million. Equitable share received represented a 100 percent achievement from the annual target. OSR consisted of local revenues which amounted to KShs. 1.61 billion and KShs. 1.51 billion being collections from Facility Improvement Fund (FIF).

The County's total expenditure stood at KShs 15.03 billion during the period under review of FY 2022/23 against an annual revised target of KShs 21.20 billion. The overall budget execution rate was 70 percent with recurrent expenditure representing 86 percent absorption rate and development expenditure representing 46 percent absorption rate.

During the period under review the County witnessed some emerging issues which may have had implication on execution of the budget which included re-organization of County Departments and operationalization of new Municipalities and alignment of human resources for the elevated statuses.

Also, the review period was encompassed with a myriad of challenges cutting across all the quarters which included: delay in funds disbursement, budget deficits, unrealised revenue collection, health financing gaps hindering service delivery and project implementation, delays in procurement processes, preparation of Bill of Quantities, and initiation of awarded projects are prevalent, affected by lengthy statutory regulations. Shortages in staff and technical personnel, aging workforce, and inadequate capacity building present significant challenges. Environmental degradation, harsh weather conditions, and climate change affect sustainability and project implementation. Slow adoption of new technologies, system challenges, and delays in system acquisitions impact departmental activities.

During the FY 2022/23 budget implementation the following recommendations were made: The National Treasury should ensure timely disbursements of funds from the Exchequer and County Treasury should also ensure timely issuance of AIE's to avoid delays in project and program implementation. The County should endeavour minimal budget revisions with the financial year. Departments should address the rising demands by undertaking resource mobilizing strategies and ensuring budget stability. County departments should adhere to EIA/ESIA/WRA compliance in all proposed projects. Departments should fast-track and start earlier the procurement processes to avoid delays and ensure timely completion of projects. County departments should strengthen contract management by introducing strict oversight mechanisms, regular audits, and clear performance benchmarks for contractors. The County Government should encourage contractors to visit project sites before quoting and enforce penalties for non-compliance or delays. Embracing technology and public sensitization in revenue administration is crucial for modern-day collection and enforcement.
