MUNICIPALITY OF NAIVASHA

BEAUTIFICATION

Moi road beautification

Undertaken in collaboration with KHS (Kenya Horticultural Society). involved planting of trees specifically Thika Palm and Grass planting

Mama Ngina street beautification

The project consisted of construction of 150*300mm planter including concrete * at top and keying to joints ,this planter would later be filled with red soil and manure then with different species of plants,flowers and trees

Municipal park beautification

The Project transformed the park into a vibrant community oasis, featuring eco-friendly benches ,handwashing stations ,a diverse array of plant species that enhance the natural beauty and ecological health of the area. Flowers, grass and shrubs were strategically planted alongside towering trees and indigenous plant species, providing shade.

PAVED PARKING

Mama Ngina Road parking area

Constructed with a spacious layout, the parking area is designed to accommodate a variety of vehicles, ensuring ease of entry and exit.

Paved parking bays and non motorized transport construction within Naivasha CBD which has facilitated improved connectivity ,reduced congestion and increased streams of revenue for the county
