## NAIVASHA CITIZENS' FORUM REPORT

A report of the first citizen forum held on Wednesday the 29<sup>th</sup> day of January, 2025 starting 8.00am at the New Governor's Office-Naivasha (Civic House) along Naivasha Girl's High school road.

Dated: 31<sup>st</sup> January 2025

**Prepared by:**

D. M. Ndiritu  
Municipal Manager  
Municipality of Naivasha

The goal of the Citizens' Forum was to observe, consult, and develop new methodologies for the Naivasha municipality continuous Citizen's engagement Forums. Stakeholders were invited to represent various clusters that had earlier been identified, to give their opinions and recommendations concerning the future of Naivasha municipality. This demonstrated a commitment of the County Government of Nakuru on public participation on matters concerning their input in the Municipality development and management agenda. The main purpose was to build a common understanding on the concept, principles and mandate of the citizens forum as envisaged in Urban Areas and Cities Act 2011 as amended 2019 (UACA).

This citizen forum was founded on the principles of participation from both citizens and the private sector, emphasizing that those affected by decisions have the right to be involved in the decision-making process. The Citizens Forum signified those public contributions directly influences decisions, as stipulated in Section 22 of the UACA. Citizens are granted the authority to engage in decision-making processes and are given opportunities to influence and participate in the municipality's development programs and projects.

## 1.2 Overview

In compliance with the Urban Areas and Cities Act 2011 Section 22 the Department of Land, Physical Planning, Housing & Urban Development and Naivasha Municipal Board in conjunction with Just City, Friedrich Ebert Stiftung (FES) and Civil Society Urban Development Platform held the first Citizen forum on 29<sup>th</sup> January 2025 at the New Governor's Office-Naivasha. The main aim was to involve the citizens in the development agenda of the municipality and have an open discussion on the future of the municipality. The stakeholders were at liberty to share out any matter of concern.

## 1.3 Preliminaries

The meeting was called to order at 10:30am by the Naivasha Municipal Manager Mr. Ndiritu who welcomed Imam Adan Ali and Bishop Peter Matheri for a word of prayer. He then gave a brief introduction of the day's agenda and afterwards welcomed the days programme coordinator, Chief Officer for Housing and Urban Development Mr. Kamau Kuria.

Mr. Kuria introduced himself and lead through a round of introductions for the participants. The participants were drawn from various clusters as follow;

	Heads of Department – Naivasha Subcounty	Sub county and ward administrators. Level 5 Hospital administrator

		and lead departments heads
--	--	----------------------------

After the introductions, the Chief officers observed that KenHa, Kurra and the Kenya Power were not represented even though invitations had been extended to them. He requested the Municipal Manger to have them in the next citizen forum. However, he noted that the representation’s would charter a way forward and that matters concerning the institutions absent would be forwarded to them for action and feedback. He highlighted the following concerning the conveyance of the first citizen forum in Naivasha municipality;

**Public Participation in Urban Governance**

- Public participation was crucial for achieving our shared vision.
- The Urban Areas and Cities Act (2011) empowers citizens through Citizens' Forums to actively influence development decisions.
- Inputs of the stakeholders and the community was genuinely valued, and that the citizen forum was a chance for the stakeholders to share their ideas and priorities for Naivasha’s future.
- The Citizens Forum Handbook guides efforts to ensure inclusivity, trust, and accountability in governance.

He then welcomed the Chair of the Naivasha Municipal Board to make his remarks.

1.3 Progress Reports

1.3.1 Chairperson Naivasha, Mr. Peter Kimani Gitau

The chair introduced himself and the board members who were present. He highlighted that the forum aims was to shape the future of Naivasha municipality in in its road to achieve a resort city status. He further highlighted the role of the board was to provide leadership and oversight in urban planning, service delivery, and sustainable development. He further informed the participants that the board was working towards preparation of a reviewed Urban Integrated Development Plan (IDeP 2024-2028) which, presented a clear vision for sustainable urban growth in Naivasha.

He informed that the Urban Integrated Development Plan and the Nakuru County Spatial Plan sets the stage for an ambition to position Naivasha as a vibrant urban center and a leader in innovation, tourism, and industrial growth. He emphasized that collaboration with the stakeholders and the community, was at the heart of making this vision a reality.

**The Resort City Vision for Naivasha** Participants were informed that:

- Naivasha was uniquely positioned to become a Resort City, a vision that aligns with Kenya’s Vision 2030 and the Nakuru County Spatial Plan.
- The vision leverages on Naivasha’s natural and strategic assets:

--	--	--	--	--	--	--

- i. **Tourism Potential:** With attractions like Lake Naivasha, Hell’s Gate National Park, and geothermal sites, the aim is to develop world-class tourism and conference facilities.
- ii. **Sustainability:** The board envisions an eco-friendly urban center that harmonizes development with environmental conservation, taking advantage of Naivasha’s rich biodiversity.
- iii. **Connectivity:** proximity to Nairobi and the Standard Gauge Railway makes Naivasha a key logistical and economic hub.

This **vision** is not just a dream; it's a **strategic plan** to transform Naivasha into a sustainable, inclusive, and globally recognized urban destination.

### **Achievements and Progress**

- Participants were informed that the board had already laid the groundwork for this vision through transformative projects like:
  - i. **The Naivasha Modern Market**, which serves as a vital economic hub for local trade and commerce.
  - ii. **The Municipal Park**, providing recreational and green spaces for families and visitors.
  - iii. **Infrastructure upgrades**, including improved drainage, paved roads, and non-motorized transport pathways.

These initiatives reflected the commitment to enhance the quality of life for residents and boosting Naivasha's competitiveness.

### **Leveraging Naivasha's Competitive Advantages**

Naivasha is a hub of opportunity with:

- **Horticulture and Floriculture**: Leading the country in flower exports and supporting local livelihoods.
- **Tourism**: Capitalizing on our natural attractions and cultural heritage to drive economic growth.
- **Industrial Development**: Emerging as a logistics hub with the Standard Gauge Railway and Inland Container Depot.
- **MICE Tourism industry (Meeting, Incentives, conferences and exhibitions)**

The role of the Board was to facilitate unlocking the potential of Naivasha Municipality in a way that benefited every resident.

**Environmental Sustainability and Conservation.** Participants were informed that;

- The Resort City Vision would prioritize sustainability, especially the protection of fragile ecosystems like Lake Naivasha.
- The municipality was implementing environmental management plans to tackle waste, conserve water resources, and reduce pollution.

### **Upcoming Initiatives to Realize the Resort City Vision**

We are focused on:

- i. Expanding road networks and improving transport connectivity to enhance urban mobility.
- ii. Strengthening service delivery in water, sanitation, healthcare, and education.
- iii. Developing mixed-use urban spaces, recreational facilities, and eco-friendly public amenities.
- iv. Attracting private sector investment to establish high-quality tourism and conference infrastructure.

### **Call to Action**

- He encouraged all to actively engage in the discussions, share their thoughts, questions, and proposals to help shape the road-map for Naivasha's growth.
- He furthered informed that Naivasha Municipal Board, was committed to transparency, accountability, and collaboration in implementing these ambitious plans.

He concluded by thanking the members present and encouraged them to participate without holding back for their contributions and voices were vital to the success of Naivasha's transformation. He noted that together, we can realize the dream of a Resort City that is sustainable, inclusive, and a model for urban excellence in Kenya and beyond.

### **1.3.2 MCA Joseph Muraya and MCA Alex Mbugua**

They recognized that there was need for people to come together and plan for the future of the municipality they could be proud as the current and also for the future generation. Major highlighted include the need to plan for a

KMTC, tapping the business opportunities brought about by WRC and also forwarding thinking on projects like soft software infrastructure e.g. Installation of CCTVs and lighting of the streets.

### 1.3.3 Director FES Mr. Bastian

The director made a positive remark towards Naivasha stating that he felt safe while jogging in the morning unlike other urban area he had been in the course of his work. He informed the participants that the organization had been in existence in Kenya for sixty-one years. The major role was to;

- promote sustainable development and facilitate realization of more just area within the urban set up.
- Implementation of infrastructure by looking at how they come about and how they are realized
- Pursuing social just and economic sustainability

He noted that there was need to sensitize citizens so that they own urbanization.

### 1.3.4 CECM Department of Land, Physical Planning, Housing & Urban Development Hon. Kihagi

He observed that regional economic development is externally induced and that public participation was a fundamental element in discussion on matters development. He stated that the collaboration in development agenda of the municipality with the stakeholders and the communities was paramount in the realization of a resort city.

He appraised the members that Mai Mahiu and Njoro were in the process of being chartered as municipalities. He noted to the member that devolution was working and gave an example that tarmacking of roads in Naivasha for the longest time had not been done and he was able to witness the same after devolution. The major infrastructure project undertaken were funded by the word bank and Naivasha municipality was also going to benefit on KUSP II under the funding of the world bank.

He retaliated that citizen forums would be used to discuss development proposals within the municipalities and called upon the stakeholders to always share their views in order to build a better municipality. He informed the participants that regionally Nakuru County had the fastest growing urban centers and there was need for collaboration planning considering the evolving of the region as an industry and logistic hub. The special economic zones established in Naivasha are going to bring business opportunities to the citizens and there was need for leaders to think on ways the citizens could tap on the opportunities.

He informed that the 1<sup>st</sup> hydrogen company was going to be set up in Naivasha bring with it complimenting businesses and opportunities for Naivasha municipality and citizens. There was also a need to develop a culture as a people of the municipality which could be market as a tourism component for people in other regions to come to Naivasha and experience the “Naivasha culture”. He recognized that there were areas of improvement that included and not limited to; signage, street lighting, demarcation of parking areas and labelling them and final but not lest extending pedestrian walk paths to surrounding estates directly connected to Naivasha CBD

### Call to Action

- He called on all to work together to ensure that the Resort City Vision benefited every resident, both now and in the future.

### 1.4 Remarks from various Stakeholders after the first sessions

The chief officer Housing and Urban development welcomed a few stakeholders to make their remarks emphasizing that the forum was more for the stakeholder to speak out rather than the traditional set ups where the Executives get to control the narrative.

The following was recorded from the stakeholders;

s.no	Organisation/stakeholder	Particulars of issues
------	--------------------------	-----------------------

i.	LABADA – Lake Naivasha Basin development	-capacity of Sewerage system Requested for a New dam to be constructed to enable running of the new sewerage line
ii.	Chair Naivasha professional Association/Sec Gen. National Parent Association	-Requested for fresh water to be sourced from Nyandarua County to mitigate on the fluoride levels of water within lower Naivasha - Requested for consideration of ECDE run by National parents’ association
iii.	Administrator Naivasha Sub County Hospital	-Need to enhance capacity for emergence unit to handle road, water, wild, animal attacks related accidents -Need to safeguard the hospital on encroachment by building a perimeter wall -Drainage within the hospital need to be redesigned and averted -Sanitation within CBD needs to be enhanced to mitigate on water borne outbreaks and contamination of foodstuff
iv.	Lakeview neighborhood Association	-Tilting of lakeview land to secure security of tenure -Need for improvement on sewerage _ improvement on the road network towards Lakeview -Provision of fresh water to the resident -Construction of a social hall
v.	Director Urban rural Linkages Prof. Issac Karanja Mwangi	-He committed to link the municipalities with UN habitat and also promote tourism and vacation site thereby enhancing job creation -His concern was that a control system to control development needed to be established -called on concerned department to be vigilant on the implementation of expansion Rironi-Mau summit highway, to ensure exit road are not compromised - He would aid in the establishment of a design studio

## 2.0 Objective Of The Citizen Forum

The presentation from George Wasonga from Just City was focused on activation of Sec 13 and 14 that creates cities and municipalities and the activation of Sec 22 that gives these institutions mandates and responsibilities. He noted that the following three factors were important in realization of a functional urban space and its development Agenda;

- i. Representation of sectors/Clusters. This would enable a structured discussions on priorities of projects/programmes
- ii. Governance – political good will in development would influence how a municipality run its operations and affairs

- iii. Spreading representation -diversity and inclusivity foster a better response in terms of getting feedback from the community, aiding in achieving greater equality for everyone and empowering a fully contribution in realization of the municipality dream from everyone.

The main objective was to build a common understanding on the Collectives engagement with the County Government, to build on inclusive governance and efficient service delivery.

This would be achieved through five specific themes as outlined below.

**1. Knowing themselves (to build trust and confidence)**

o Focus: The focus of this session is to lay the context for understanding the interest and character that defines the relationships in the Citizens Forum. The main aim is the citizens knowing that they have jurisdiction/representation in their cluster.

**2. Knowing their space (to establish an environment for consensus building)**

o Focus: The focus of this session is to explore the normative and practical attributes that facilitate an environment for consensus building in the Citizens Forum. Citizen forum being an inherent right to the citizens requires them after defining their representation to create leadership within their cluster/cell. They will then process issues within the cell and forward them to get feedback and charter a way forward.

**3. Knowing their government (by using informed knowledge for negotiations)**

o Focus: The focus of this session is to expose the participants to various models and approaches to planning for performance for efficient engagement with government. This calls for;

- i. Informing- timely consumption of information
- ii. Consulting – genuine intentions in seeking advice on various issues
- iii. Involving – matching the interest of all involved while influencing selfless feedback
- iv. Collaboration – decision making that is considerate and based of legitimacy

**4. Knowing the future (by paying attention to the future needs of society)**

o Focus: The focus of this session is to introduce the participants to tools for social planning Citizens Forum and an annual calendar of proposed engagements. This will build trust and confidence in the citizen forum, the leaders and will encourage the citizens to put their issues forward.

### 3.1 Remarks/questions/suggestion from the stakeholders

s.no	Organisation/Stakeholder	Particulars of issues
i.	Hawkers (Stage Nairobi) – Veronica Ngugi	<ul style="list-style-type: none"> <li>• Consideration that there are different categories of hawkers that have different needs during planning of stalls/shades and relocation</li> </ul>

### 3.3 MEDIUM TERM PRIORITIES AND FINANCIAL PLAN FOR THE MTEF PERIOD 2025/26 –2027/28

Programme 1: Administration, Planning and Support Services.

**Outcome:** Effective and efficient service delivery to clients and stakeholders.

Building institutional capacity.

- Recruitment of key staff.
- Capacity building of staff and board members.
- Strengthening collaborations with other agencies, partners, County Departments, other Counties and National Entities

Developing of by laws and policies

- Generation of monitoring and evaluation reports and financial reports.

Programme 2: Naivasha Municipal Services

Outcome: Safe, inclusive, resilient and sustainable Municipality

- Rehabilitation of parks and gardens
- solid waste management
- Sensitization and awareness Greening and beautification
- Enhancement of integrated campaigns on environmental issues
- Promotion of climate change adaptation and mitigation measures
- Upgrading/rehabilitation of roads within the Municipal
  - Rehabilitation of storm water drains
  - Construction of non-motorized transport facilities
  - Installation of road complementary facilities e.g., streetlights, CCTV, Street benches, traffic lights, road signage's
  - Rehabilitation of open spaces
  - Improve monitoring and evaluation
  - Expansion of social infrastructure facilities (Schools, Social Halls, Safe houses)
  - Promoting affordable housing.
  - Adoption of research and innovation to inform infrastructure development

### 3.4 ANALYSIS OF RESOURCE REQUIREMENT VERSUS ALLOCATION

Programme	Requirement			Allocation		
	2025/26	2026/27	2027/28	2025/26	2026/27	2027/28

<b>Administration Planning and Support Services</b>	76,532,500.00	84,185,750.00	92,604,325.00	67,581,081.00	74,339,189.00	81,773,000.00
<b>Naivasha Municipal Services</b>	847,000,000.00	931,700,000.00	1,024,870,000.00	<b>174,100,000</b>	<b>191,510,000.00</b>	<b>210,660,000.00</b>
<b>TOTAL</b>	<b>923,532,500.00</b>	<b>1,015,885,750.00</b>	<b>1,117,474,325.00</b>	<b>241,681,081.00</b>	<b>265,849,189.00</b>	<b>292,433,000.00</b>

### 3.6 Emerging issues

#### Changing social Economic Environment

International and local social economic changes has led to suppressed economic activities and uncertainty about the future which led to delayed implementation of development projects in the municipality

- Sustained inflation compounded with the weak currency.**

The general macroeconomic environment presents a challenge to project implementation due to variations in the cost of imported inputs relating to particular projects. (Steel, Aluminium, Mineral oil)

- **Delegation of roles:** the delegated and gazetted roles include development control, solid waste management and on-street parking.
- **End of Kenya Urban Support Program I (KUSP I).**

KUSP I came an end in July 2023 hence this necessitates increased equitable shares budgetary allocations to ensure continued project implementation and sustainability causing a strain.

### 3.7 Challenges

#### **Operationalization of functions**

While the municipal charter gives mandate to the municipality to exercise particular functions within the municipality, existing county structures and departmental mandates conflict with that of the municipal administration. This has hampered the full operationalisation of the municipal functions.

#### **Shortage of Human Resource and key service delivery assets.**

The municipality lacks adequate staff and assets/equipment and this has hampered the operationalisation of mandates and implementation of projects

#### **Inadequate office space**

The Municipal administration occupies a limited space and there is no adequate working area for staff, leading to a sub-optimal working environment and thus affecting performance of duties and execution of tasks.

#### **Inadequate and Limited Resource Allocation**

In stark contrast with the Municipal charter, the funding availed to the Municipality by the County Government falls far short of the sort of resources that would be required to execute the mandate to the satisfaction of the promulgators of the municipality.

#### **Lengthy Procurement Processes and Procedures**

The County administration in its wisdom has deemed it important to centralize procurement processes for all its departments. While this regulation enables the administration to have enhanced oversight of the process, it leads to delays in the progress of development projects due to liaison schedules and increased bureaucracy.

- **Insufficient disaggregated municipal data**

The municipality has not yet conducted an audit of the entire resources under its jurisdiction. This hampers proper development planning and utilization of said resources.

- Lack of a transitional framework on delegated functions.
- Inadequate key staffs such as registered engineer, planner, quantity surveyor, environmentalist and architect.

### 3.8 Recommendations

Sector Recommendations and Way forward.

In light of the challenges that have been identified by the municipality, there are some recommendations that are proposed to mitigate them. They are as follows

- **Operationalization of functions**

The municipal administration should petition the county government for transfer of functions and further pursue an amendment of the County Revenue Bill to facilitate sharing of revenue collected within the municipality.

- **Human Resource and key service delivery assets.**

The mandate for the recruitment of staff lies with the public service board. The municipal administration should petition the county government for deployment of more staff and the accompanying resources to the municipality in line with the municipality organogram.

- **Resource Allocation**

The county government should allocate the municipal administration with more resources and proceed with the revenue sharing arrangement as proposed in the County Revenue Bill.

### **Procurement Processes and Procedures**

The County administration should delegate the procurement function to the municipality as envisioned in the municipal charter to speed up the implementation of development programmes.

- **Aggregation of Municipal Data**

The municipality should proceed with a comprehensive audit of all the resources under its jurisdiction so as to facilitate proper planning of development priorities.

- **Increase funding Allocation**

Advocate for an upward revision of funding ceilings to ensure adequate resources for all programs.

- Issuance of an executive order for transition functions to the department.

#### 4.1 Mandate of the Directorate of Environment, Energy, Natural Resources & Climate Change Sub sector:

- I. Undertake environmental planning, conservation and management
- II. Manage solid waste
- III. Design and implement climate change adaptation and mitigation strategies
- IV. Energy reticulation and promotion of use of clean energy
- V. Perform conservation management in the County
- VI. Promote tree growing and extension forestry resources management
- VII. Enforce policies, standards and regulations
- VIII. Undertake pollution control (public nuisance, air, land, water, noise and excessive vibrations)
- IX. Develop and implement natural resource management programs
- X. Undertake environmental education awareness
- XI. Establishment and management of County recreational parks
- XII. Enhance Climate change resilience, adaptation and mitigation.

#### 4.2 Role of stake holders

STAKEHOLDER	ROLE OF STAKEHOLDERS
W C C P C s a n d L o c a l Community	<ul style="list-style-type: none"> <li>❖ Provision of labor</li> <li>❖ Participation and engagements in FLLoCA program for quality service delivery</li> <li>❖ Provide feedback on service delivered</li> </ul>
Development partners & NGOs e.g., Practical Action, Kenya Red Cross, VCA, WWF, FLLoCA, KfW, World Bank, WRI.	<ul style="list-style-type: none"> <li>❖ Offer partnership in policy formulation, capacity development and awareness creation</li> <li>❖ Enhance benchmarking, networking, collaborations and engagements</li> <li>❖ Technology transfer, enhanced innovation, research and development</li> <li>❖ Information dissemination, disclosure and accountability</li> </ul>
National Government Line ministries and Parastatals: <ul style="list-style-type: none"> <li>❖ Ministry of Environment, Forestry and Climate Change</li> <li>❖ NEMA</li> </ul> County Government Departments	<ul style="list-style-type: none"> <li>❖ Offer guidance and support on policy formulation, institutional strengthening and technical advice on climate actions</li> <li>❖ Awareness creation, training and capacity development</li> <li>❖ Monitoring and Evaluation</li> <li>❖ Enhance cooperation, networking, collaboration and building synergies</li> <li>❖ Resource mobilization</li> <li>❖ Data and Information Dissemination</li> <li>❖ Approval and issuance of permits</li> </ul>
County Assembly	<ul style="list-style-type: none"> <li>❖ Offer oversight</li> <li>❖ Legislation</li> </ul>

### 4.3 SUMMARY OF PRIORITY ACTIONS PER SECTOR

#### Sector 1: Agriculture

Establishment of 2 water pans

Desilting of 2 dams

Establishment of a 50-Tonne Capacity Irish Potato Cooling Plant

Establishment of an agricultural aggregation centre

Establishment of a drought resistant propagation hub

#### Sector 2: Water

Solarization and equipping of 14 water projects

Construction of masonry tanks

Pipeline extension of 20km

Construction of water kiosks and water access points

#### Sector 3: Environment

Conserve and rehabilitate Muro River, Shawa River in Boror, Mbaruk mireroni river and Tongi tongi river

Establishment of a tree nursery at Kayole and Kihoto  
Restoration and Conservation of Kiboko Spring Riparian land  
Desilting of the storm water retention pond  
Rehabilitation of Lion’s Garden

**Sector 4: Energy**

Establishment of 12 completely equipped energy saving jikos (Installation of stainless boiler stoves, installation of chimney pots and installation of reducers, Molding Refacing in schools – 7 locations in Kiamaina, 3 in Kaptembwo, and 3 in Shabaab  
Repair existing 3 -100 litre capacity cookstoves in London

**Sector 5: Integrated: Agriculture, Water and Environmental Management**

Conservation and establishment of water points in Gitura Dam, River Ndarugu- Njoro  
Establishment of a Tree Nursery and Vertical Gardens and 8.3km Pipelaying from Kahuru Borehole  
Construction of a fishpond and rehabilitation of River Ndarugu- Kapkures  
Construction of 1 Greenhouse, water tanks and establishment of a mushroom farming at Menengai East and Muguga health centre

**Sector 6: Environment and Energy**

Installation of 2 bio-digester(biogas) at Naivasha  
Restoration of River Ndarugu and installation of energy saving jikos at Mwariki Primary- Rhonda

**Sector 7: Integrated; Environment and Water**

Rehabilitation and conservation of 3 springs and 1 dam  
Installations of water tanks, water access points and pipeline extensions

Analysis of budget allocation

	<b>BUDGET ALLOCATION</b>
--	--------------------------

SOURCE	2022/2023	2023/2024	2024/2025
County Counter Funding	33,33,312,923	62,500,000	100,707,177
World Bank FLLoC A allocation	-	188,211,085	188,211,085
<b>TOTAL</b>		<b>250,711,085</b>	<b>288,918,262</b>

4.4 Close departmental linkages

Sub Programme	Department	Cross-sector Impact		
		Synergies	Adverse impact	
Administration services	Department of Finance and Economic Planning	Transfer of funds to SPA	Delayed transfer of funds to SPA	Hasten transfer of funds to SPA, procurement and payment processes
		Procurement processes	Lengthy procurement process	
		Payment process	Delayed payment process	
		Allocation of resources		
Water and Sewerage Services	Department of Lands and Urban Planning	Acquisition of Land for infrastructure Development	Delayed implementation of projects due to lack of land	- Hasten Procurement process for acquisition of land
			Inadequate surveying services	- Include private surveyors in the procurement framework

Roads and Infrastructure	Department of Roads and infrastructure	Approval of wayleaves	Damage of water pipelines during grading/ mulching	Liaison with department during implementation of projects
Environmental Management	All County Departments in implementation of their projects	Solid waste management Adherence to ESIA/EA mainstreaming	Environmental degradation/pollution	Enhance solid waste management  Ensure compliance to Environmental Management Standards as per the ESIA.
Climate Change Resilience and Energy Development	All County Sectors	Mainstreaming climate change actions	Increased risks and vulnerabilities	Mainstream climate change actions within the departments

#### 4.5 Emerging Issues

- I. Involvement of community members, WCCPCs from project identification and implementation is key to achievement of County Plans
- II. It is important to continue with capacity building of wards on climate change issues to bridge **awareness gap**

#### 4.6 Challenges

- I. Delays in transfer of funds from CRF to SPA
- II. Continued Degradation of Environment and her resources through logging, excessive charcoal burning and over exploitation of fragile ecosystems
- III. Harsh weather conditions which have affected sustainability of tree growing and rehabilitation programmes

#### 4.7 Recommendations

- I. The National Treasury to hasten transfer of funds from CRF to SPA
- II. Continuous strengthening of community engagement and participation
- III. PIU to continue enhancing capacity building and training of CCU and county staff on FLLoCA

### 5.0 Closing Remarks

#### 5.1 MCA Alex

- I. He expressed his concern on the parking of long hauler lorries at night along Kenyatta Avenue which would soon be a menace

- II. He requested for consideration on putting cabro at silver along mugwan road
- III. He requested that Gitwamba- Maryland, Kayole- Karagita road should also be considered for development
- IV. There was need to have more hydrants ports within major estates and in different zones
- V. There was also need to consider lighting the streets with a solution of mulika mwizi flood light
- VI. The residence of Kayole had a request for relocation of the dumpsite

## **5.2 MCA Mwangi Muraya**

- I. There was need to reconsider rerouting the heavy motor vehicles entry to town off the Uhuru highway from Kinungi are to buffalo mall and signage put forth to deter the drivers. This was informed by vehicle accidents caused by failure of brakes by the heavy trucks and old farm bus lorries.
- II. He not that plans should be underway to buy more land for cemetery because they were declared full
- III. He requested for a mechanism to be explored of dealing with waste because as currently observed by various stakeholders, the Kayole dumpsite was full and cause major havoc in the environment around it and harmful fumes to the residence making even property to lose value

## **5.3 Area Chief Ms. Gariri**

- I. There was need to develop standards of bar development. She noted that shanties were being licensed as bars
- II. There was need to consider establishing a rehabilitation center that offered affordable services
- III. There was need to consider electing bumps along Methuri area

## **5.4 MP representative Mr. Benson Muriuki**

- I. He informed that the office of the Member of Parliament appreciated the invitation, and observed that previously they had not received invitation to public participation forums.
- II. He echoed the concerns of putting up street lighting and more specific Mulika mwizi flood light

## **5.5 CECM Lands, Housing and Urban Development**

He appreciated the members for showing up and contributing to the municipal development agenda. He noted that there was need to develop a sewer and water master plan for the municipality to address all the issue of sanitation and water. He called on the stakeholders to continue with the passion of contributing in the municipality development agenda in its pursuit to become a resort city.

He informed that the issue at the slaughter house would solved amicably by the parties involved because there was goodwill with a all parties involved.

## **5.6 County Secretary and Head of Public Service Doc. Samuel Mwaura**

Mr. Mwaura expresses his sincere gratitude to all the stakeholders, partners involved and the staff of the county government in making the first citizen forum a success. He noted that there was a cooperative fund that had been activated and was open for small scale business traders. The programme would offer training and mentorship and then like successful trainees with funds to set up business. He informed that enterprise prices had an allocation of Kshs 50 million and encouraged traders to join saccos because it was earlier to obtain funding while belonging to a Sacco.

On the issue of Kayole dumpsite, he informed the stakeholders that efforts had been made to rethink the model of dumping the waste but instead converting the same by recycling and building economic activities in the recycling of waste. These would create economic activities and improve on the environment within the Kayole dumpsite. He also mentioned that, the county had made deliberate efforts to look for land for cemeteries and the major challenge was that communities were not willing to sell land for establishing cemeteries. He noted that, filled up cemeteries were being grabbed and people putting up development on the land and therefore this led to the conclusion that community approach to on stigmatization on cemeteries was the issue.

Concerning the issue of protecting hospital land from grabbers, he informed the members that in the past there was a deliberate plan to ensure hospital land was a stand alone entity and if this could not be achieved, planners ensured that that the hospital was surrounded by road. The issue of the traders around Naivasha sub county hospital needed a smart approach because on the one side the hospital could put up well planned smart stalls along the fence and charge the traders and with the expansion of the road underway during the implementation of expansion of the Rironi highway to Mau Summit, the space could be used up. Therefore, further consultation on the same was paramount.

On matters agriculture, he informed that the County was focusing on the adoption of climate-smart agriculture, utilising technology to boost production, and promoting research, training, and modern farming methods. These programmes aimed at improving agricultural productivity, food security, and climate change resilience. The County Government of Nakuru was collaborating with the National Agricultural Value Chain Development Project (NAVCDP) aimed at increasing market participation for farmers and value addition through a World Bank-funded initiative. Other initiatives in Nakuru County included; Potato Value Chain Support, ECDE Feeding Program and Avocado production.

He concluded by thanking the stakeholders for their valued contribution and their insights which would be incorporated in the municipality development agenda. He also assured them that the citizen forum would continue because this a principle enshrined in the Laws of Kenya that participation from both citizens and the private sector, on issues affecting them, was their right to be involved in the decision-making process. He thanked the stakeholders for their support and wished them a lovely evening.
